

PREPAREDNESS MONTH IN NAPA COUNTY

Preparedness Month Initiative

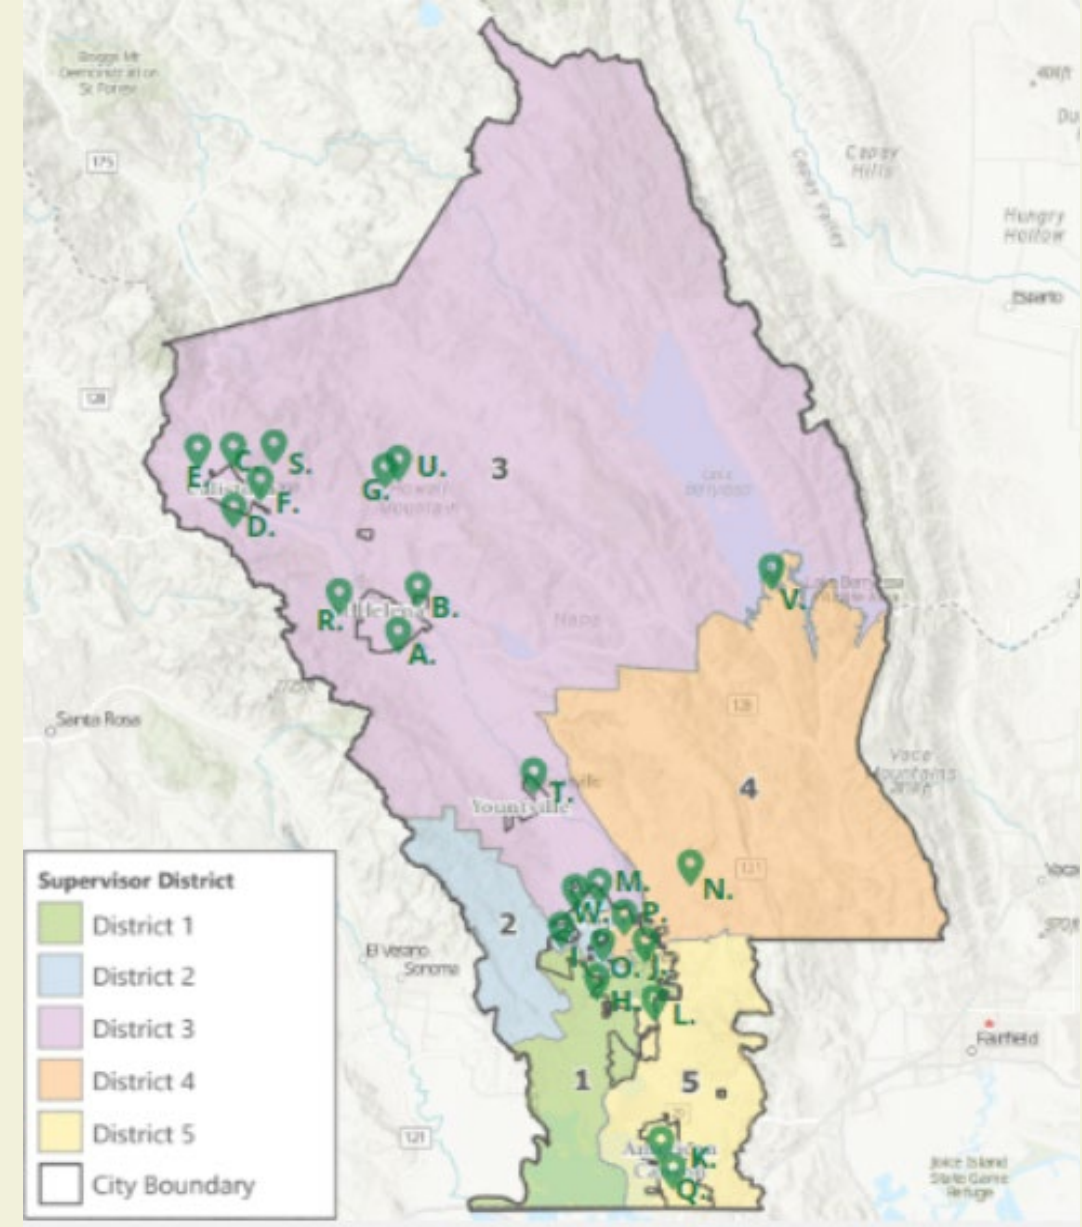

National Preparedness Month started in 2021 with FEMA's Ready Campaign. It is an observance every September to raise awareness about the importance of preparing for disasters and emergencies. Napa County OES hopes to bring a local approach to the national preparedness month by helping the community feel prepared during local disasters through programs developed to improve and strengthen the community.

This can be done by incorporating the Whole Community Approach into everyday preparedness goals.

Community Outreach
