Where is it budgeted?	Watershed Management: Organization 8000500, NPDES: Organization 8000501
Is it Mandatory or Discretionary?	Discretionary
Discretionary Justification:	The intention of the assessment process, which began in 1996, was to establish a mechanism to provide continued annual funding for certain categories of ongoing projects benefiting the residents and landowners within the District. ### **BACKGROUND AND DISCUSSION**

On August 30, 1996, the Board adopted a Resolution which levied assessments for three zones previously created within the District (Joint Zone Project No. 96-1) to fund various aspects of the maintenance and watershed management program of the District. The Resolution also established an ongoing annual methodology for levying these assessments to reflect changes in the property characteristics of the assessed properties and adjustments for inflation. In accordance with this methodology, on April 5, 2022 the Board held

a public hearing at the conclusion of which the Board adopted the Engineer's Report for the program for the upcoming year and adopted a Resolution indicating its intention to levy assessments and directing notice to be given of a protest hearing to be held on May 3, 2022.

The protest hearing has been noticed in the manner provided by the District's governing statute. It is anticipated that the Board will open the hearing, hear the staff report, and receive any written protests filed prior to or at the hearing from registered voters residing in or the owners of assessable land located within the Joint Zone Project's three zones.

At the conclusion of the hearing, the Secretary of the District Board will tally any such protests which have been filed and not withdrawn. If the tally shows that signed protests were received by fewer than 25 percent of the registered voters residing within each affected Zone and/or by the owners of less than 25 percent of the area of land located within each affected Zone proposed to be subject to assessment for the Joint Zone Project for the 2022-2023 Fiscal Year, based upon those acreages shown on the latest Napa County assessment records, it is recommended that the Board adopt a Resolution (proposed Resolution attached) to:

1. Find that submission of the assessments to the voters is not required;
2. Levy the assessments for Fiscal Year 2022-2023 for Joint Zone Project 96-1; and
3. Authorize the Napa County Auditor-Controller to post the assessment roll to the 2022-2023 Napa County Property Tax Roll.

If a greater percentage of protests (by either registered voters or owners of assessable land) is received in any of the three Zones, the Board is required by the District's Act to either abandon the proposed assessments of that Zone or submit those assessments to the voters of that Zone for approval.
