The requested Use Permit includes emergency repair of MWC's small community water system through 1) The use of an existing new well drilled on the site; and 2) Relocation and development of a water distribution system including water pumps and filters and six (6) 5,000-gallon water tanks. The water distribution system, water storage tanks, equipment, and materials to support the small community water system would be located in a proposed new two-story mixed use in an approximately 3,260 sf building. The single-family residence is an allowed use and is not subject to the requested use permit.
