BACKGROUND AND DISCUSSION

The annual appropriation limit is calculated in accordance with Article XIII B of the California Constitution and is the amount the District could spend that is funded by certain taxes and State subventions, while the revenues subject to that limit is the amount of revenue from those sources the District anticipates receiving in the fiscal year. In certain instances when the revenues subject to the limit exceeds the appropriation limit, tax revenues are required to be returned to local taxpayers.

On January 6, 2015, the property owners of Napa Flood Control and Water Conservation District Community District No. 2014-01 approved the formation of Napa County Flood Control and Water Conservation Community Facilities District (for the Oakville to Oak Knoll Maintenance, Monitoring and Restoration Project ("Community Facilities District")) setting the appropriation limit for the District at \$2,000,000 per fiscal year.

The Auditor-Controller is requesting approval of a resolution establishing the appropriations limit for fiscal year 2022-2023 at \$2,000,000, with estimated revenues subject to that limit of \$120,010.
