BACKGROUND AND DISCUSSION

The California Office of Emergency Services (Cal OES) released a request for proposal on January 26, 2022 for the electronic Suspected Child Abuse Report (SCAR) system program. This program was originally started in Los Angeles County, in 2015 after recognizing the grave consequences of not having an electronic system through which Child Welfare Services (CWS), local law enforcement and the District Attorney could efficiently communicate reports of suspected child abuse. Fresno, Santa Barbara and Yolo Counties have more recently received funding from Cal OES via the California Children's Justice Act (CJA) Task Force to establish their own electronic SCAR system.

The District Attorney's office was successful in receiving initial grant funding of \$200,000 for a one (1) year term of June 1, 2022 to May 31, 2023 to establish an electronic Suspected Child Abuse Report system with the

cooperative participation of the County Child Welfare Services department and local law enforcement agencies.

Cal OES is now providing a non-competitive grant application of \$200,000 for the CJA federal grant funds for the one (1) year term, June 1, 2023 to May 31, 2024 to continue the development and establish an electronic Suspected Child Abuse Report (SCAR) system.

Today's recommended action will authorize the Chair to sign the Certificate of Assurance of Compliance (COAOC) document, which authorizes the District Attorney to apply and sign for the grant subaward including extensions, modifications or amendments thereof.
