Community Participation

Please explain your reasons for wishing to serve and, in your opinion, how you feel you could contribute.

As a mother of a child (now adult) diagnosed with early onset bipolar disorder, I experienced the difficulty of navigating the healthcare system and educational system to advocate for my daughter. Over time, I have learned that many in my extended family have experienced mental illness, including anxiety, depression, bipolar disorder, and PTSD, and I have lived with depression much of my adult life. These experiences have inspired me to be a mental health advocate. I am especially passionate about early identification and diagnosis, since I have seen the positive impact that it can have on child and adolescent development.
