Recommended Conditions of Approval and Agency Memos

Pridmore Property
General Plan Amendment P17-00135
Rezone P20-00223 and Use Permit P20-00222
Planning Commission Hearing May 15, 2024

**PLANNING COMMISSION HEARING MAY 15, 2024
RECOMMENDED CONDITIONS OF APPROVAL
FOR BOARD OF SUPERVISORS ADOPTION**

**Pridmore Property Lodging Facility
General Plan Amendment P17-00135
Rezone P20-002223
Use Permit P20-00222
1283 Capell Valley Road (Highway 128)
APN 032-130-026-000**

This Permit encompasses and shall be limited to the project commonly known as Pridmore Property Lodging Facility, located at 1283 Capell Valley Road. Part I encompasses the Project Scope and general conditions pertaining to statutory and local code references, project monitoring and the process for any future changes or activities. Part II encompasses the ongoing conditions relevant to the operation of the project. Part III encompasses the conditions relevant to construction and the prerequisites for a Final Certificate of Occupancy. It is the responsibility of the permittee to communicate the requirements of these conditions and mitigations (if any) to all designers, contractors, employees, and the general public to ensure compliance is achieved.

Where conditions are not applicable or relevant to this project, they shall be noted as “Reserved” and, therefore, have been removed.

When modifying a legally established entitlement related to this project, these conditions are not intended to be retroactive or to have any effect on existing vested rights except where specifically indicated.

PART I

1.0 PROJECT SCOPE

This Permit encompasses and shall be limited to:

- 1.1 Amend the General Plan Map to change the designation of the site from Agricultural, Watershed and Open Space (AWOS) to Urban Residential (UR).
- 1.2 Change the zoning designation of the site from Agricultural Watershed (AW) to Commercial Limited (CL)
- 1.3 Approve a Use Permit for small lodging facility to include:
 - a. Nine (9) lodging units (ranging in size from approximately 400 square feet to 600 square feet);
 - b. One (1) caretaker unit (18.104.030.M Commercial accessory dwelling unit) (approximately 1,200 square feet);
 - c. Accessory buildings – Keep existing school building, restroom building, and storage building, to be used for accessory uses, including, but not limited to, guest check-in, office, events, and storage;
 - d. Accessory building – New building to be used for office, storage, or other accessory uses (approximately 600 square feet);
 - e. New barn in a fenced off agricultural area for community gatherings and

- private events;
- f. Annual events, including six (6) events with 150 people and 12 with 60 people;
- g. Four full-time (4) employees;
- h. Improvements to existing utilities and installation of new utilities;
- i. Improvements to the existing water system and installation of new water system components;
- j. Improvements to the existing wastewater system and installation of new wastewater system components;
- k. Improvements to the existing driveway to meet current RSS standards;
- l. Improvements to existing recreation facilities and shade structure and installation of new recreation facilities and shade structure;
- m. Internal site access roads and pedestrian paths;
- n. Removal of unused paved areas; and
- o. Addition of landscaping.

The General Plan Amendment and Rezoning shall be completed as detailed in the associated Resolution and Ordinance adopted by the Board of Supervisors. The Use Permit shall be designed in substantial conformance with the submitted site plan, elevation drawings, and other submittal materials and shall comply with all requirements of the Napa County Code (the County Code). It is the responsibility of the permittee to communicate the requirements of these conditions and mitigations (if any) to all designers, contractors, employees, and the general public to ensure compliance is achieved. Any expansion of or change in use or alternative locations for fire suppression or other types of water tanks shall be approved in accordance with the County Code and may be subject to the permit modification process.

2.0 STATUTORY AND CODE SECTION REFERENCES

All references to statutes and code sections shall refer to their successor as those sections or statutes may be subsequently amended from time to time.

3.0 MONITORING COSTS

All Staff costs associated with monitoring compliance with these conditions, previous permit conditions, and project revisions shall be borne by the permittee and/or property owner. Costs associated with conditions of approval and mitigation measures that require monitoring, including investigation of complaints, other than those costs related to investigation of complaints of non-compliance that are determined to be unfounded, shall be charged to the property owner or permittee. Costs shall be as established by resolution of the Board of Supervisors in accordance with the hourly consulting rate established at the time of the monitoring and shall include maintenance of a \$500 deposit for construction compliance monitoring that shall be retained until issuance of a Final Certificate of Occupancy. Violations of conditions of approval or mitigation measures caused by the permittee's contractors, employees, and/or guests are the responsibility of the permittee.

The Planning Commission may implement an audit program if compliance deficiencies are noted. If evidence of a compliance deficiency is found to exist by the Planning Commission at some time in the future, the Planning Commission may institute the program at the permittee's expense (including requiring a deposit of funds in an amount determined by the Commission) as needed until compliance assurance is achieved. The

Planning Commission may also use the data, if so warranted, to commence revocation proceedings in accordance with the County Code.

PART II

4.0 OPERATIONAL CHARACTERISTICS OF THE PROJECT

Permittee shall comply with the following during operation of the project:

4.1 GROUND WATER MANAGEMENT – WELLS

This condition is implemented by the Planning, Building and Environmental Services Department:

The permittee shall be required (at the permittee's expense) to record well monitoring data (specifically, static water level no less than quarterly, and the volume of water withdrawn no less than monthly). Such data will be provided to the County, if the Director of Planning, Building, and Environmental Services (PBES Director) determines that substantial evidence¹ indicates that water usage at the project is affecting, or would potentially affect, groundwater supplies or nearby wells. If data indicates the need for additional monitoring, and if the applicant is unable to secure monitoring access to neighboring wells, onsite monitoring wells may need to be established to gauge potential impacts on the groundwater resource utilized for the project. Water usage shall be minimized by use of best available control technology and best water management conservation practices.

In order to support the County's groundwater monitoring program, well monitoring data as discussed above will be provided to the County if the PBES Director determines that such data could be useful in supporting the County's groundwater monitoring program. The project well will be made available for inclusion in the groundwater monitoring network if the PBES Director determines that the well could be useful in supporting the program.

In the event that changed circumstances or significant new information provide substantial evidence¹ that the groundwater system referenced in this use permit would significantly affect the groundwater basin, the PBES Director shall be authorized to recommend additional reasonable conditions on the permittee, or revocation of this permit, as necessary to meet the requirements of the County Code and to protect public health, safety, and welfare.

4.2 AMPLIFIED MUSIC

There shall be no amplified sound system or amplified music utilized outside of approved, enclosed, buildings.

¹. Substantial evidence is defined by case law as evidence that is of ponderable legal significance, reasonable in nature, credible and of solid value. The following constitute substantial evidence: facts, reasonable assumptions predicated on facts; and expert opinions supported by facts. Argument, speculation, unsubstantiated opinion or narrative, or clearly inaccurate or erroneous information do not constitute substantial evidence.

4.3 TRAFFIC

To the maximum extent feasible, scheduling of reoccurring vehicle trips to and from the site for employees and deliveries shall not occur during peak travel times (4:00 – 6:00 p.m. on weekdays and 2:00 – 4:00 p.m. on weekends). All road improvements on private property required per Engineering Services shall be maintained in good working condition and in accordance with the Napa County Roads and Streets Standards.

4.4 PARKING

The location and visitor parking and truck loading zone areas shall be identified along with proposed circulation and traffic control signage (if any). Parking shall be limited to approved parking spaces only and shall not occur along access or public roads or in other locations except during authorized events. For authorized events, overflow parking may occur in the areas allowed per COA No. 1.0 above. In no case shall parking impede emergency vehicle access or public roads.

4.5 BUILDING DIVISION – USE OR OCCUPANCY CHANGES

Please contact the Building Division with any questions regarding the following:

In accordance with the California Building Code (CBC), no change shall be made in the use or occupancy of an existing building unless the building is made to comply with requirements of the current CBC as for a new building.

4.6 FIRE DEPARTMENT – TEMPORARY STRUCTURES

Please contact the Fire Department with any questions regarding the following:

The permittee and/or designee shall obtain a tent permit from the Fire Department for any temporary structures utilized for authorized events allowed per COA No.1.0 above.

4.7 NAPA COUNTY MOSQUITO ABATEMENT PROGRAM **[RESERVED]**

4.8 GENERAL PROPERTY MAINTENANCE – LIGHTING, LANDSCAPING, PAINTING, OUTDOOR EQUIPMENT STORAGE, MECHANICAL EQUIPMENT, AND TRASH ENCLOSURE AREAS

- a. All lighting shall be permanently maintained in accordance with the lighting and building plans approved by the County.
- b. All landscaping shall be permanently maintained in accordance with the landscaping approved by the County.
- c. All outdoor screening, storage, mechanical equipment and utility structures shall be permanently maintained in accordance with the landscaping and building plans approved by the County. No stored items shall exceed the height of the screening. Exterior equipment shall be maintained so as to not create a noise disturbance or exceed noise thresholds in the County Code.

- d. The colors used for the roof, exterior walls and built landscaping features of the project shall be limited to earth tones that will blend the facility into the colors of the surrounding site specific vegetation. The permittee shall obtain the written approval of the Planning Division prior to any change in paint color that differs from the approved building permit. Highly reflective surfaces are prohibited.
- e. Designated trash enclosure areas shall be made available and properly maintained for intended use.

4.9 NO TEMPORARY SIGNS

Temporary off-site signage, such as "A-Frame" signs are prohibited.

4.10 COMPLIANCE WITH OTHER DEPARTMENTS AND AGENCIES - OPERATIONAL CONDITIONS

The attached project conditions of approval include all of the following County Divisions, Departments and Agencies' requirements. Without limiting the force of those other requirements which may be applicable, the following are incorporated by reference as enumerated herein:

- a. Engineering Services Division operational conditions as stated in their Memorandum dated February 14, 2023.
- b. Environmental Health Division operational conditions as stated in their Memorandum dated September 21, 2020.
- c. Building Division operational conditions as stated in their Memorandum dated April 18, 2024s.
- d. Department of Public Works operational conditions as stated in their Memorandum dated April 30, 2024.

The determination as to whether or not the permittee has substantially complied with the requirements of other County Divisions, Departments and Agencies shall be determined by those County Divisions, Departments or Agencies. The inability to substantially comply with the requirements of other County Divisions, Departments and Agencies may result in the need to modify this permit.

4.11 OPERATIONAL MITIGATION MEASURES **[RESERVED]**

4.12 OTHER CONDITIONS APPLICABLE TO THE OPERATIONAL ASPECTS OF THE PROJECT

- a. Landscaping within yard setbacks (minimum 20 feet from property lines) shall be maintained, as provided in the deed restriction required per COA No. 6.16.f.
- b. The applicant shall provide portable toilet facilities for guest use during all events (per recommendation contained in Wastewater Feasibility and Calculations prepared by CMP Civil Engineering, dated July 22, 2020). The

portable toilet facilities must be pumped by a Napa County permitted pumping company.

- c. Greenhouse Gas Best Management Practices – Operational items checked on the attached Voluntary Best Management Practices Checklist for Development Projects, submitted by the applicant dated July 30, 2020, shall be implemented and evidence of implementation shall be provided to staff upon request.
- d. The two access gates through the northern fence line shall be kept locked and/or, a “no pets allowed” sign shall permanently remain on the gates.
- e. All event activity, excluding quiet clean-up, shall cease by 10:00 pm.

4.13 PREVIOUS CONDITIONS [RESERVED]

PART III

5.0 PREREQUISITE FOR ISSUANCE OF PERMITS

5.1 PAYMENT OF FEES

No building, grading or sewage disposal permits shall be issued or other permits authorized until all accrued planning permit processing fees have been paid in full. This includes all fees associated with plan check and building inspections, associated development impact fees established by County Ordinance or Resolution, and the Napa County Affordable Housing Mitigation Fee in accordance with County Code.

6.0 GRADING/DEMOLITION/ENVIRONMENTAL/BUILDING PERMIT/OTHER PERMIT PREREQUISITES

Permittee shall comply with the following with the submittal of a grading, demolition environmental, building and/or other applicable permit applications:

6.1 COMPLIANCE WITH OTHER DEPARTMENTS AND AGENCIES - PLAN REVIEW, CONSTRUCTION AND PREOCCUPANCY CONDITIONS

The attached project conditions of approval include all of the following County Divisions, Departments and Agencies' requirements. The permittee shall comply with all applicable building codes, zoning standards, and requirements of County Divisions, Departments and Agencies at the time of submittal and may be subject to change. Without limiting the force of those other requirements which may be applicable, the following are incorporated by reference as enumerated herein:

- a. Engineering Services Division plan review/construction/preoccupancy conditions as stated in their Memorandum dated February 14, 2023.
- b. Environmental Health Division plan review/construction/preoccupancy conditions as stated in their Memorandum dated September 21, 2020.
- c. Building Division plan review/construction/preoccupancy conditions as stated in their Memorandum dated April 18, 2024.

- d. Department of Public Works plan review/construction/preoccupancy conditions as stated in their Memorandum dated April 30, 2024.
- e. Yocha Dehe Tribe letter dated November 3, 2023.

The determination as to whether or not the permittee has substantially complied with the requirements of other County Divisions, Departments and Agencies shall be determined by those County Divisions, Departments or Agencies. The inability to substantially comply with the requirements of other County Divisions, Departments and Agencies may result in the need to modify the permit.

6.2 BUILDING DIVISION – GENERAL CONDITIONS

Please contact the Building Division with any questions regarding the following:

- a. A building permit shall be obtained for all construction occurring on the site not otherwise exempt by the CBC or any State or local amendment adopted thereto.
- b. If there are any existing structures and/or buildings on the property that will need to be removed to accommodate construction activities, a separate demolition permit shall be required from the Building Division prior to removal. The permittee shall provide a “J” number from the Bay Area Air Quality Management District (BAAQMD) at the time the permittee applies for a demolition permit if applicable.
- c. All areas of newly designed and newly constructed buildings, facilities and or site improvements must comply with the CBC accessibility requirements, as well as, American with Disabilities Act requirements when applicable. When alterations or additions are made to existing buildings or facilities, an accessible path of travel to the specific area of alteration or addition shall be provided as required per the CBC.

6.3 LIGHTING – PLAN SUBMITTAL

- a. Two (2) copies of a detailed lighting plan showing the location and specifications for all lighting fixtures to be installed on the property shall be submitted for Planning Division review and approval. All lighting shall comply with the CBC.
- b. All exterior lighting, including landscape lighting, shall be shielded and directed downward; located as low to the ground as possible; the minimum necessary for security, safety, or operations; on timers; and shall incorporate the use of motion detection sensors to the greatest extent practical. All lighting shall be shielded or placed such that it does not shine directly on adjacent properties or impact vehicles on adjacent streets. No flood-lighting or sodium lighting of the building is permitted, including architectural highlighting and spotting. Low-level lighting shall be utilized in parking areas as opposed to elevated high-intensity light standards.

6.4 LANDSCAPING – PLAN SUBMITTAL

- a. Two (2) copies of a detailed final landscaping and irrigation plan, including parking details, shall be submitted with the building permit application package for the Planning Division's review and approval prior to the issuance of any building permit associated with this permit. The plan shall be prepared pursuant to the Water Efficient Landscape Ordinance (Chapter 18.118 of the County Code) requirements in effect at the time of building permit application submittal, as applicable, and shall indicate the names and locations of all plant materials to be used along with their method of maintenance.
- b. Plant materials shall be purchased locally when practical, and, to the greatest extent possible, the plant materials shall be the same native plants found in Napa County. The Agricultural Commissioner's office shall be notified of all impending deliveries of live plants with points of origin outside of Napa County.
- c. No trees greater than 6" diameter at breast height shall be removed, except for those identified on the submitted site plan. Any Oak trees removed as a result of the project shall be replaced at a 2:1 ratio and shown on the landscaping plans for the Planning Division's review and approval. Trees to be retained shall be protected during construction by fencing securely installed at the outer most dripline of the tree or trees. Such fencing shall be maintained throughout the duration of the work undertaken in connection with project development/construction. In no case shall construction material, debris or vehicles be stored in the fenced tree protection area.
- d. Evergreen screening shall be installed between the industrial portions of the operation (e.g., tanks, crushing area, parking area, etc.) and any off-site residence from which these areas can be viewed.
- e. All landscaped areas and sidewalks shall be separated from parking and drive aisle areas by a minimum 6-inch raised concrete curb.

6.5 COLORS

The colors used for the roof, exterior walls and built landscaping features of the project shall be limited to earth tones that will blend the facility into the colors of the surrounding site specific vegetation. The permittee shall obtain the written approval of the Planning Division in conjunction with building permit review and/or prior to painting the building. Highly reflective surfaces are prohibited.

6.6 OUTDOOR STORAGE/SCREENING/UTILITIES

- a. Details of outdoor storage areas and structures shall be included on the building and landscape plans. All outdoor storage of equipment shall be screened from the view of residences of adjacent properties by a visual barrier consisting of fencing or dense landscaping. No stored item shall exceed the height of the screening. Water and fuel tanks, and similar structures, shall be screened to the extent practical so as to not be visible from public roads and adjacent parcels.

- b. New utility lines required for this project that are visible from any designated scenic transportation route (see Community Character Element of the General Plan and the County Code) shall be placed underground or be made virtually invisible from the subject roadway.

6.7 MECHANICAL EQUIPMENT **[RESERVED]**

6.8 TRASH ENCLOSURES

Adequate area must be provided for collection and loading of garbage and recyclables generated by the project. The applicant must work with the franchised garbage hauler for the service area in which they are located, in order to determine the area and the pedestrian and vehicle access needed for the collection site. The garbage and recycling enclosure shall meet the minimum enclosure requirements established by staff and the franchised hauler, which shall be included in the building permit submittal.

6.9 ADDRESSING

All project site addresses shall be determined by the PBES Director, and be reviewed and approved by the United States Post Office. The PBES Director reserves the right to issue or re-issue an appropriate situs address at the time of issuance of any building permit to ensure proper identification and sequencing of numbers. For multi-tenant or multiple structure projects, this includes building permits for later building modifications or tenant improvements.

6.10 HISTORIC RESOURCES

All permitted work performed on any historic resources shall follow the latest edition of the Secretary of Interior's Standards for Historic Preservation and Guidelines for Treatment of Historic Properties (Standards). Written verification that such work meets the Standards shall be submitted by a qualified historic architect for review and approval by the PBES Department prior to issuance of any grading or building permit.

6.11 DEMOLITION ACTIVITIES **[RESERVED]**

6.12 VIEWSHED – EXECUTION OF USE RESTRICTION **[RESERVED]**

6.13 PERMIT PREREQUISITE MITIGATION MEASURES **[RESERVED]**

6.14 PARCEL CHANGE REQUIREMENTS **[RESERVED]**

6.15 FINAL MAPS **[RESERVED]**

6.16 OTHER CONDITIONS APPLICABLE TO THE PROJECT PERMITTING PROCESS

- a. In conjunction with building permit application submittal, the permittee shall not include natural gas appliances or natural gas plumbing within new buildings or the renovation of existing buildings.

- b. In conjunction with building permit application submittal, the project shall comply with electric vehicle requirements in the most recently adopted version of CALGreen Tier 2.
- c. In conjunction with building permit application submittal, the permittee shall provide documentation confirming to the Planning Division that all checked Voluntary Best Management Practices Measures submitted with the project Use Permit application shall be addressed through project construction and/or implemented through winery operation.
- d. In conjunction with the building permit application, plans shall show the location of construction fencing along the 45-foot stream setback, to include the entire dripline of the oak woodland.
- e. In conjunction with the building permit application, plans shall show the existing fencing along the stream with the requirement to maintain "no pets allowed" signs at the two access gates.
- f. Prior to Planning Division approval of the building permit, the applicant shall record a deed restriction for maintenance of landscaping within the yard setbacks (minimum 20 feet).
- g. Prior to Planning Division approval of the building permit for the caretaker unit the permittee shall record a deed restriction limiting in perpetuity the use of the dwelling unit to occupancy by households with moderate incomes and below (see NCC Section 18.28.030.M. Commercial accessory dwelling unit).

7.0 PROJECT CONSTRUCTION

Permittee shall comply with the following during project construction:

7.1 SITE IMPROVEMENT

Please contact Engineering Services with any questions regarding the following:

- a. **GRADING & SPOILS**
All grading and spoils generated by construction of the project facilities shall be managed per Engineering Services direction. Alternative locations for spoils are permitted, subject to review and approval by the PBES Director, when such alternative locations do not change the overall concept, and do not conflict with any environmental mitigation measures or conditions of approval.
- b. **DUST CONTROL**
Water and/or dust palliatives shall be applied in sufficient quantities during grading and other ground disturbing activities on-site to minimize the amount of dust produced. Outdoor construction activities shall not occur when average wind speeds exceed 20 mph.
- c. **AIR QUALITY**
During all construction activities the permittee shall comply with the most current version of BAAQMD Basic Construction Best Management Practices including but not limited to the following, as applicable:

1. Post a publicly visible sign with the telephone number and person to contact at the lead agency regarding dust complaints. The BAAQMD's phone number shall also be visible.
2. Water all exposed surfaces (e.g., parking areas, staging areas, soil piles, grading areas, and unpaved access roads) two times per day.
3. Cover all haul trucks transporting soil, sand, or other loose material off-site.
4. Remove all visible mud or dirt tracked onto adjacent public roads by using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.
5. All vehicle speeds on unpaved roads shall be limited to 15 mph.
6. All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible. Building pads shall be laid as soon as possible after grading unless seeding or soil binders are used.
7. Idling times shall be minimized either by shutting off equipment when not in use or reducing the maximum idling time to five (5) minutes (as required State Regulations). Clear signage shall be provided for construction workers at all access points.
8. All construction equipment shall be maintained and properly tuned in accordance with manufacturer's specifications. All equipment shall be checked by a certified visible emissions evaluator. Any portable engines greater than 50 horsepower or associated equipment operated within the BAAQMD's jurisdiction shall have either a California Air Resources Board (ARB) registration Portable Equipment Registration Program (PERP) or a BAAQMD permit. For general information regarding the certified visible emissions evaluator or the registration program, visit the ARB FAQ http://www.arb.ca.gov/portable/perp/perpfaq_04-16-15.pdf or the PERP website <http://www.arb.ca.gov/portable/portable.htm>.

d. **STORM WATER CONTROL**

The permittee shall comply with all construction and post-construction storm water pollution prevention protocols as required by the County Engineering Services Division, and the State Regional Water Quality Control Board.

7.2 ARCHEOLOGICAL FINDING

In the event that archeological artifacts or human remains are discovered during construction, work shall cease in a 50-foot radius surrounding the area of discovery. The permittee shall contact the PBES Department for further guidance, which will likely include the requirement for the permittee to hire a

qualified professional to analyze the artifacts encountered and to determine if additional measures are required.

If human remains are encountered during project development, all work in the vicinity must be halted, and the Napa County Coroner informed, so that the Coroner can determine if an investigation of the cause of death is required, and if the remains are of Native American origin. If the remains are of Native American origin, the permittee shall comply with the requirements of Public Resources Code Section 5097.98.

7.3 CONSTRUCTION NOISE

Construction noise shall be minimized to the greatest extent practical and feasible under State and local safety laws, consistent with construction noise levels permitted by the General Plan Community Character Element and the County Noise Ordinance. Construction equipment muffling and hours of operation shall be in compliance with the County Code. Equipment shall be shut down when not in use. Construction equipment shall be staged, loaded, and unloaded on the project site, if at all practicable. If project terrain or access road conditions require construction equipment to be staged, loaded, or unloaded off the project site (such as on a neighboring road or at the base of a hill), such activities only shall occur daily between the hours of 8:00 AM to 5:00 PM.

7.4 CONSTRUCTION MITIGATION MEASURES **[RESERVED]**

7.5 OTHER CONSTRUCTION CONDITIONS APPLICABLE TO THE PROJECT PROPOSAL

- a. Prior to commencement of earth disturbance approved under the building permit or grading permit, the permittee shall submit to Planning staff confirmation from the Yocha Dehe Wintun Nation of completion of cultural sensitivity training for individuals associated with project construction, as noted in the November 3, 2023, letter from the tribe.
- b. Fencing shall be installed along the entire the 45-foot stream setback, including the entire dripline of the oak woodland, to ensure no work occurs within the setback. The fencing shall remain in place throughout construction, to be removed upon final inspection.

8.0 TEMPORARY CERTIFICATE OF OCCUPANCY – PREREQUISITES

A Temporary Certificate of Occupancy (TCO) may be granted pursuant to the County Code to allow specific limited use of the project prior to completion of all project improvements. Permittee shall comply with the following before a TCO is granted:

8.1 TEMPORARY OCCUPANCY

All life and safety conditions shall be addressed prior to issuance of a TCO by the County Building Official. TCOs shall not be used for the occupancy of hospitality buildings and shall not exceed the maximum time allowed by the County Code which is 180 days. In special circumstances, Departments and/or Agencies with jurisdiction over the project are authorized as part of the TCO process to require

a security deposit or other financial instrument to guarantee completion of unfinished improvements.

9.0 FINAL CERTIFICATE OF OCCUPANCY – PREREQUISITES

Permittee shall comply with the following before a Final Certificate of Occupancy is granted by the County Building Official, which upon granting, authorizes all use permit activities to commence:

9.1 FINAL OCCUPANCY

All project improvements, including compliance with applicable codes, conditions, and requirements of all Departments and Agencies with jurisdiction over the project, shall be completed.

9.2 SIGNS

Detailed plans, including elevations, materials, color, and lighting for any project identification or directional signs shall be submitted to the Department for administrative review and approval prior to installation. Administrative review and approval is not required if the signage to be installed is consistent with signage plans submitted, reviewed and approved as part of this permit approval. All signs shall meet the design standards as set forth in the County Code. Any off-site signs allowed shall be in conformance with the County Code.

9.3 GATE/ENTRY STRUCTURES

Any gate installed at the project entrance shall be reviewed by the PBES Department and the Fire Department to assure that the design allows large vehicles, such as motorhomes, to turn around if the gate is closed without backing into the public roadway, and that fire suppression access is available at all times. If the gate is part of an entry structure an additional permit shall be required pursuant to the County Code and in accordance with the Napa County Roads and Street Standards. A separate entry structure permit is not required if the entry structure is consistent with entry structure plans submitted, reviewed, and approved as part of this permit approval.

9.4 LANDSCAPING

Landscaping shall be installed in accordance with the approved landscape plan.

9.5 ROAD OR TRAFFIC IMPROVEMENT REQUIREMENTS

The permittee shall remove the existing school crossing signage at the crosswalk per approval from Caltrans.

9.6 DEMOLITION ACTIVITIES [RESERVED]

9.7 GRADING SPOILS

All spoils piles shall be removed in accordance with the approved grading permit and/or building permit.

9.8 MITIGATION MEASURES APPLICABLE PRIOR TO ISSUANCE OF A FINAL CERTIFICATE OF OCCUPANCY [RESERVED]

9.9 OTHER CONDITIONS APPLICABLE PRIOR TO ISSUANCE OF A FINAL
CERTIFICATE OF OCCUPANCY

- a. Prior to certificate of occupancy for any structures, confirm recordation of deed restriction for maintenance of landscaping within the yard setbacks required per COA No. 6.16.f.
- b. Prior to Certificate of Occupancy for the caretaker unit, confirm recordation of deed restriction for the caretaker unit required per COA No. COA 6.16.g.

MEMORANDUM

To: Emily Hedge, Planning	From: Raulton Haye, Engineering
Date: February 14, 2023	Re: P20-00222 Pridmore Lodging Facility APN: 032-130-025

The Engineering Division has reviewed the use permit application P20-00222 for the proposed lodging facility located on assessor's parcel number 032-130-025. Based upon the information provided in the application, Engineering finds the application **complete** and recommends the following conditions of approval:

RECOMMENDED APPROVAL CONDITIONS:

OPERATIONAL CHARACTERISTICS

1. The facility is designated as a discharger that discharges stormwater associated with industrial activity to waters of the United States. Therefore, the facility shall maintain or apply for coverage under the State Water Resources Control Board's Industrial General Permit (IGP), including meeting all applicable provision and protocols of the IGP. If the facility fails to meet the discharge prohibitions of the IGP, Napa County may require the facility to make the necessary improvements to eliminate all exposures to stormwater of the pollutant(s) for which the water body is impaired.

PREREQUISITES FOR ISSUANCE OF PERMITS

2. Any roadway, access driveway, and parking areas, proposed new or reconstructed shall meet the requirements as outlined in the latest edition of the Napa County Road & Street Standards for Commercial development at the time of use permit approval. The property owner shall obtain a grading permit for all proposed roadway improvements.
3. All on site civil improvements including but not limited to the excavation, fill, general grading, drainage, curb, gutter, surface drainage, storm drainage, parking and drive isles, shall be constructed according to plans prepared by a registered civil engineer, which will be reviewed and approved by the Engineering Division of the Napa County Planning, Building, and Environmental Services Department (PBES) **prior to the commencement** of any on site land preparation or construction. Plans shall be wet signed and submitted with the building and/or grading permit documents at the time of permit application. A plan check fee will apply.

4. Grading and drainage improvements shall be constructed according to the current Napa County Road and Street Standards, Chapter 16.28 of the Napa County Code, and Appendix J of the California Building Code.
5. **Prior to issuance of a building permit** the owner shall submit the necessary documents for Erosion Control as determined by the area of disturbance of the proposed development in accordance with the Napa Countywide Stormwater Pollution Prevention program Erosion and Sediment Control Plan Guidance for Applicant and Review Staff dated December 2014.
6. **Prior to issuance of a building permit** the owner shall prepare a [Choose a Stormwater Project Type] Stormwater Control Plan (SCP) in accordance with the latest edition of the BASMAA Post-Construction Manual for review and approval by the Engineering Division in PBES.
7. **Prior to issuance of a building permit**, an Operation and Maintenance Plan shall be submitted and tentatively approved by the Engineering Division in PBES. **Before final occupancy** the property owner must legally record the "Operation and Maintenance Agreement", approved by the Engineering Division in PBES.

PREREQUISITES DURING PROJECT CONSTRUCTION

8. Required on-site pre-construction meeting with the Napa County PBES Engineering Division **prior to start of construction**.

PREREQUISITES FOR TEMPORARY CERTIFICATE OF OCCUPANCY

9. All roadway improvements shall be completed **prior to execution** of any new entitlements approved under this Use Permit. **** If no temporary occupancy is requested, then this becomes a requirement prior to final occupancy.**

PREREQUISITES FOR FINAL CERTIFICATION OF OCCUPANCY

10. Site shall be completely stabilized to the satisfaction of the County Engineer prior to Final Occupancy.

Any changes in use may necessitate additional conditions for approval.

If you have any questions regarding the above items, please contact Raulton Haye from Napa County Planning, Building, and Environmental Services Department, Engineering Division, at (707)253-4621 or by email at Rauton.Haye@countyofnapa.org

MEMORANDUM

To:	Emily Hedge Planner III	From:	Darell Choate EHS
Date:	September 21, 2020	Re:	Use Permit Application to rezone and convert a school property into a tourist lodging facility. 1191 Lommel Rd., Calistoga, Ca Assessor Parcel #'s: 032-130-026-000 Permit# P20-00222

Environmental Health Division staff has reviewed the Use Permit Application. This Division has no objection to approval of the application with the following conditions of approval:

Prior to building permit issuance:

1. An inspection of the existing conventional sewage system must be performed by a licensed sewage contractor and the findings submitted to this Division prior to building permit approval by the Environmental Health Division.
2. To secure a permit to install a standard sewage treatment system the applicant must submit plans with a plan check fee to this Division for review and approval. The plans must show the location of the proposed septic system relative to the proposed project and other structures, the required 100% expansion area, the proposed trench detail, the location of the site evaluation soil profile pits and all other site features such as storm drainage, wells, roads, slope, etc. The plans must be drawn to scale. If alternative sewage treatment system plans are required, such plans shall fulfill this requirement.
3. A permit to construct the wastewater treatment system must be secured from this Division prior to approval of a building clearance (or issuance of a building permit) for any structure that generates wastewater to be disposed of by this system.
4. The water supply and related components must comply with the California Safe Drinking Water Act and Related Laws. This will require plan review and approval prior to approval of building permits. The technical report must be completed by a licensed engineer with experience in designing water systems. The preliminary technical report must be submitted to the Regional Water Quality Control Board staff a minimum of six (6) months prior to beginning any water-related improvement in accordance with the California Health and Safety Code, Section 116527. Prior to occupancy, the owner must apply for and obtain an annual operating permit for the water system from this Division. The applicant must comply with all required monitoring and reporting.

During construction and/or prior to final occupancy being granted:

1. The use of the absorption field/drain field areas shall be restricted to activities which will not contribute to compaction of the soil with consequent reduction in soil aeration. Activities which must be avoided in the area of the septic system include equipment storage, traffic, parking, pavement, livestock, etc.
2. During the construction, demolition, or renovation period of the project the applicant must use the franchised garbage hauler for the service area in which they are located for all wastes generated during project development, unless applicant transports their own waste. If the applicant transports their own waste, they must use the appropriate landfill or solid waste transfer station for the service area in which the project is located.

Upon final occupancy and thereafter:

1. Pursuant to Chapter 6.95 of the California Health and Safety Code, businesses that store hazardous materials above threshold planning quantities (55 gallons liquid, 200 cubic feet compressed gas, or 500 pounds of solids) shall obtain a permit, file an approved Hazardous Materials Business Plan to <http://cers.calepa.ca.gov/>, and be approved by this Division within 30 days of said activities.
2. Any hazardous waste produced on site must be stored and disposed of in a manner consistent with Chapter 6.5, Division 20 of the California Health and Safety Code and with Title 22, Division 4.5 of the California Code of Regulations. Additionally, a Hazardous Waste Generator Permit must be obtained from this Division.
3. All solid waste shall be stored and disposed of in a manner to prevent nuisances or health threats from insects, vectors and odors.
4. Adequate area must be provided for collection of recyclables. The applicant must work with the franchised garbage hauler for the service area in which they are located, in order to determine the area and the access needed for the collection site. The garbage and recycling enclosure must meet the enclosure requirements provided during use permit process and be included on the building permit submittal. The designated area shall remain available and be properly maintained for its intended use.
5. The existing well must be properly protected from potential contamination. If the existing well(s) is to be destroyed, a well destruction permit must be obtained from this Division by a licensed well driller. If this well is not destroyed, it must be properly protected and an approved backflow prevention device installed according to the Water System's specifications.

Brian D. Bordona
Director

To: Emily Hedge, Project Planner	From: John M Chase, Plans & Permit Supervisor
Date: 04/18/2024	Re: P20-00222; Pridmore Property Use Permit

Building Division Conditions of Approval

1. The Building Division is not reviewing this project for in its entirety for compliance with the California Building Standards Codes at this time; the Building Division is reviewing the proposed Planning entitlements only. The Building Division has no issues or concerns with the approval of the Use Permit; it is a Planning entitlement and does not in itself authorize any construction activities. Separate building permits shall be required.

2. The plans provided for Use Permit application do not provide enough information in sufficient detail to determine all code requirements. A complete and thorough plan review will be performed at the time an application is made for the required building, plumbing, mechanical, and electrical and any other construction permits required by other Napa County Agencies. The following comments are provided to make the applicant aware of what codes the applicant will be required to comply with, as well as issues that may need to be addressed prior/during the building permit application and review process.

3. In accordance with the California Building Code, Chapter 1, Division 1, Section 1.1.9, which states, "only those standards approved by the California Building Standards Commission that are effective at the time of application for a building permit is submitted shall apply to the plans and specifications for, and to the construction under that permit". The codes adopted at this time are 2019 California Building Standards Codes, Title 24, part 2, Building volumes 1 & 2, part 3 Electrical, part 4 Mechanical, part 5 Plumbing, part 6 Energy, part 9 Fire, and part 11 Green Buildings.

4. If there are any existing structures and/or buildings on the property that will need to be removed to accommodate construction activities a separate demolition permit will be required from the Napa County Building Division prior to the removal. Please note the applicant will be required to provide a "J" number from the Bay Area Quality Management District at the time the applicant applies for a demolition permit if applicable.

5. The site and associated buildings are required to be accessible to persons with disabilities and shall conform to all parts of the California Building current code cycle code at time of application. Some of these requirements shall be as listed below.

A) 2 of the transient occupancy rooms must be accessible per Table 11B-224.2 & 4.

Planning Division (707) 253-4417	Building Division (707) 253-4417	Engineering & Conservation (707) 253-4417	Environmental Health (707) 253-4471	Parks & Open Space (707) 259-5933
-------------------------------------	-------------------------------------	--	--	--------------------------------------

- B) The ADA accessible rooms must have accessible parking in front of them.
- C) Accessible paths must be provided to all property amenities from the accessible rooms, caretaker unit, and guest services building.
- D) Caretaker unit shall be accessible.
- E) The public parking lot shall have accessible parking per table 11B-208.2 & EV charging requirements per Calgreen code Table 5.106.5.3.1 & CBC Table 11B-228.3.2.1.
- F) It should not be presumed that existing building foundations or pads can be used for placement or construction of new buildings. These elements must be proven to be structurally sound by geotechnical and civil engineers through testing and special inspections.
- G) Building permits are required for all new structures and any change of use or remodel of any existing structures under the current code cycle at time of permit submittal.
- H) Existing play area may be required to comply to CBC 11B-240.

6. In accordance with the California Building Code no change shall be made in the use or occupancy of an existing building unless the building is made to comply with the requirements of the California Building Code as for a new building. Issues of compliance with the California Building Code, Title 24, will be addressed during the building permit application, review, and approval process. If the applicant has any questions, please have the applicant contact me at john.chase@countyofnapa.org

7. All plans and documents for commercial projects are required by California Law to be prepared and coordinated under the direction of a California Licensed Design Professional, such as an Architect and/or Engineer in accordance with California Business and Professions Code Chapter 3, and the California Building Code, Chapter 1.

Gratefully,

MEMORANDUM

To: PBES Staff	From: Ahsan Kazmi, P.E. Senior Traffic Engineer
Date: September 30, 2021 Updated: April 30, 2024	Re: Pridmore Property (P20-00222) Conditions of Approval

This memorandum on the Conditions of Approval is prepared at the request of Planning, Building, and Environmental Services (PBES) staff regarding the Use Permit Modification Application # P20-00222, APN# 032-130-026, for the proposed Pridmore Property located at 1191 Capell Valley Road, in the County of Napa.

In preparation of this memorandum, we have reviewed the Focused Traffic Study for the 1191 Capell Valley Road Tourist Lodging Project, dated November 4, 2021, prepared by W-Trans.

After careful evaluation and review of the documents, we believe that the report provides sufficient information to develop conditions for the project.

The Department of Public Works established the following conditions of approval related to the Use Permit Application Number P20-00222:

Event Parking

1. The project applicant/permittee shall provide an overflow parking area on site and/or off site with shuttle service for events over 60 people, with a maximum of 150 people.

On Street Parking

2. Parking within the public right-of-way is prohibited during visitation, large marketing and/or temporary events

Site Improvements

3. The project applicant/permittee shall install at least ten bicycle parking spaces on site

Landscape Maintenance

4. Landscaping at the project driveway shall be maintained to not interfere with sight lines requires for safe stopping distance on the public-right-of-way. No items that are wide than 18 inches can

be taller than 30 inches other than street trees and traffic control devices. Street trees should be deciduous and have branches lower than 4 feet in height up kept once the tree is established.

Encroachment Permit

5. An encroachment permit will be required for any improvements in the County's Right-of-Way. For the application submittal process contact the Roads Division at 707-944-0196. The improvements shall be constructed in compliance with the Napa County Road & Street Standards. The Registered Civil Engineer, upon completion of the improvements, must certify to the Department of Public Works that the improvements are made in accordance with all conditions of approval, including any related land use permit conditions and the approved improvement plans. Completion of improvements and certification shall be completed prior to occupancy or establishment of use. Please contact the Roads office at (707) 944-0196 to initiate the encroachment permit process. Any improvements located on Caltrans Right-of-Way will require a separate coordination and permitting process.

Please contact Ahsan Kazmi, P.E. Senior Traffic Engineer at Ahsan.Kazmi@countyofnapa.org or call (707) 259-8370 if you have any questions.

YOCHA DEHE
CULTURAL RESOURCES

November 3, 2023

County of Napa
Attn: Emily Hedge, Planner III
1195 Third Street, Suite 210
Napa, CA 94559

RE: 1283 Capell Valley Rd, Napa YD-09132023-02

Dear Ms. Hedge:

Thank you for your project notification letter regarding cultural information on or near the proposed 1283 Capell Valley Rd, Napa. We appreciate your effort to contact us and wish to respond.

The Cultural Resources Department has reviewed the project and concluded that it is within the aboriginal territories of the Yocha Dehe Wintun Nation. Therefore, we have a cultural interest and authority in the proposed project area.

Based on the information provided, Yocha Dehe Wintun Nation is not aware of any known cultural resources near this project site and a cultural monitor is not needed. However, if any new information is available or cultural items are found, please contact the Cultural Resources Department. In addition, we recommend cultural sensitivity training for any pre-project personnel.

To schedule cultural sensitivity training, prior to the start of the project, please contact:

CRD Administrative Staff
Yocha Dehe Wintun Nation
Office: (530) 796-3400
Email: THPO@yochadehe.gov

Please refer to identification number YD – 09132023-02 in correspondence concerning this project.

Thank you for providing us the opportunity to comment.

Sincerely,

DocuSigned by:

8DD0BD089ED6438...

Voluntary Best Management Practices Checklist for Development Projects

Napa County General Plan Policy CON-65 (e) and Policy CON-67 (d) requires the consideration of Greenhouse Gas (GHG) emissions in the review of discretionary projects and to promote and encourage "green building" design. The below Best Management Practices (BMPs) reduce GHG emissions through energy and water conservation, waste reduction, efficient transportation, and land conservation. The voluntary checklist included here should be consulted early in the project and be considered for inclusion in new development. It is not intended, and likely not possible for all projects to adhere to all of the BMPs. Rather, these BMPs provide a portfolio of options from which a project could choose, taking into consideration cost, co-benefits, schedule, and project specific requirements. Please check the box for all BMPs that your project proposes to include and include a separate narrative if your project has special circumstances.

Practices with Measurable GHG Reduction Potential

The following measures reduce GHG emissions and if needed can be calculated. They are placed in descending order based on the amount of emission reduction potential.

Already
Doing

Plan
To Do

ID # BMP Name

- | | | |
|---|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | BMP-1 Generation of on-site renewable energy |
| <i>If a project team designs with alternative energy in mind at the conceptual stage it can be integrated into the design. For instance, the roof can be oriented, sized, and engineered to accommodate photovoltaic (PV) panels. If you intend to do this BMP, please indicate the location of the proposed PV panels on the building elevations or the location of the ground mounted PV array on the site plan. Please indicate the total annual energy demand and the total annual kilowatt hours produced or purchased and the potential percentage reduction of electrical consumption. Please contact staff or refer to the handout to calculate how much electrical energy your project may need.</i> | | |
| <hr/> | | |

Already Plan
Doing To Do

- ☐ ☐ **BMP-3 Habitat restoration or new vegetation (e.g. planting of additional trees over 1/2 acre)**
Napa County is famous for its land stewardship and preservation. Restoring areas within the creek setback reduces erosion potential while planting areas that are currently hardscape (such as doing a bio-retention swale rather than underground storm drains) reduces storm water and helps the groundwater recharge. Planting trees can also increase the annual uptake of CO₂e and add the County's carbon stock.

- ☐ ☐ **BMP-4 Alternative fuel and electrical vehicles in fleet**
The magnitude of GHG reductions achieved through implementation of this measure varies depending on the analysis year, equipment, and fuel type replaced.
- Number of total vehicles** _____
- Typical annual fuel consumption or VMT** _____
- Number of alternative fuel vehicles** _____
- Type of fuel/vehicle(s)** _____
- Potential annual fuel or VMT savings** _____

- ☐ ☐ **BMP-5 Exceed Title 24 energy efficiency standards: Build to CALGREEN Tier 2**
The California Building Code update effective January 1, 2011 has new mandatory green building measures for all new construction and has been labeled CALGREEN. CALGREEN provides two voluntary higher levels labeled CALGREEN Tier I and CALGREEN Tier II. Each tier adds a further set of green building measures that go above and beyond the mandatory measures of the Code. In both tiers, buildings will use less energy than the current Title 24 California Energy Code. Tier I buildings achieve at least a 15% improvement and Tier 2 buildings are to achieve a 30% improvement. Both tiers require additional non-energy prerequisites, as well as a certain number of elective measures in each green building category (energy efficiency, water efficiency, resource conservation, indoor air quality and community).

- ☐ ☐ **BMP-6 Vehicle Miles Traveled (VMT) reduction plan**
Selecting this BMP states that the business operations intend to implement a VMT reduction plan reducing annual VMTs by at least 15%.
- Tick box(es) for what your Transportation Demand Management Plan will/does include:
- ☐ employee incentives
- ☐ employee carpool or vanpool
- ☐ priority parking for efficient transportation (hybrid vehicles, carpools, etc.)
- ☐ bike riding incentives
- ☐ bus transportation for large marketing events
- ☐ Other: _____

Estimated annual VMT _____

Potential annual VMT saved _____
% Change _____

Already
Doing

Plan
To Do

☐☐

BMP-7 Exceed Title 24 energy efficiency standards: Build to CALGREEN Tier 1

See description below under BMP-5.

☐☐

BMP-8 Solar hot water heating

Solar water heating systems include storage tanks and solar collectors. There are two types of solar water heating systems: active, which have circulating pumps and controls, and passive, which don't. Both of them would still require additional heating to bring them to the temperature necessary for domestic purposes. They are commonly used to heat swimming pools.

☐☐

BMP-9 Energy conserving lighting

Lighting is approximately 25% of typical electrical consumption. This BMP recommends installing or replacing existing light bulbs with energy-efficient compact fluorescent (CF) bulbs or Light Emitting Diode (LED) for your most-used lights. Although they cost more initially, they save money in the long run by using only 1/4 the energy of an ordinary incandescent bulb and lasting 8-12 times longer. Typical payback from the initial purchase is about 18 months.

☐☐

BMP-10 Energy Star Roof/Living Roof/Cool Roof

Most roofs are dark-colored. In the heat of the full sun, the surface of a black roof can reach temperatures of 158 to 194 °F. Cool roofs, on the other hand, offer both immediate and long-term benefits including reduced building heat-gain and savings of up to 15% the annual air-conditioning energy use of a single-story building. A cool roof and a green roof are different in that the green roof provides living material to act as a both heat sink and thermal mass on the roof which provides both winter warming and summer cooling. A green (living) roof also reduces storm water runoff.

☐☒

BMP-11 Bicycle Incentives

Napa County Zoning Ordinance requires 1 bicycle rack per 20 parking spaces (§18.110.040). Incentives that go beyond this requirement can include on-site lockers for employees, showers, and for visitor's items such as directional signs and information on biking in Napa. Be creative!

Additional bike parking or lockup sheds for guests.

☐☐

BMP-12 Bicycle route improvements

Refer to the Napa County Bicycle Plan (NCPTA, December 2011) and note on the site plan the nearest bike routes. Please note proximity, access, and connection to existing and proposed bike lanes (Class I: Completely separated right-of-way; Class II: Striped bike lane; Class III: Signed Bike Routes). Indicate bike accessibility to project and any proposed improvements as part of the project on the site plan or describe below.

Already Plan
Doing To Do

☐ ☐ **BMP-13 Connection to recycled water**

Recycled water has been further treated and disinfected to provide a non-potable (non-drinking water) water supply. Using recycled water for irrigation in place of potable or groundwater helps conserve water resources.

☐ ☐ **BMP-14 Install Water Efficient fixtures**

WaterSense, a partnership program by the U.S. Environmental Protection Agency administers the review of products and services that have earned the WaterSense label. Products have been certified to be at least 20 percent more efficient without sacrificing performance. By checking this box you intend to install water efficient fixtures or fixtures that conserve water by 20%.

☐ ☐ **BMP-15 Low-impact development (LID)**

LID is an approach to land development (or re-development) that works with nature to manage storm water as close to its source as possible. LID employs principles such as preserving and recreating natural landscape features, minimizing effective imperviousness to create functional and appealing site drainage that treat storm water as a resource rather than a waste product. There are many practices that have been used to adhere to these principles such as bioretention facilities, rain gardens, vegetated rooftops, rain barrels, and permeable pavements. By implementing LID principles and practices, water can be managed in a way that reduces the impact of built areas and promotes the natural movement of water within an ecosystem or watershed. Please indicate on the site or landscape plan how your project is designed in this way.

☐ ☒ **BMP-16 Water efficient landscape**

If your project is a residential development proposing in excess of 5,000 sq. ft. or a commercial development proposing in excess of 2,500 sq. ft. The project will be required to comply with the Water Efficient Landscape Ordinance (WELO).

Please check the box if you will be complying with WELO or If your project is smaller than the minimum requirement and you are still proposing drought tolerant, zeroscape, native plantings, zoned irrigation or other water efficient landscape.

☐ ☐ **BMP-17 Recycle 75% of all waste**

Did you know that the County of Napa will provide recycling collectors for the interior of your business at no additional charge? With single stream recycling it is really easy and convenient to meet this goal. To qualify for this BMP, your business will have to be aggressive, proactive and purchase with this goal in mind.

Already Plan
Doing To Do

☐ ☐ **BMP-18 Compost 75% food and garden material**

The Napa County food composting program is for any business large or small that generates food scraps and compostable, including restaurants, hotels, wineries, assisted living facilities, grocery stores, schools, manufacturers, cafeterias, coffee shops, etc. All food scraps (including meat & dairy) as well as soiled paper and other compostable - see <http://www.naparecycling.com/foodcomposting> for more details.

☐ ☐ **BMP-19 Implement a sustainable purchasing and shipping programs**

Environmentally Preferable Purchasing (EPP) or Sustainable Purchasing refers to the procurement of products and services that have a reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. By selecting this BMP, you agree to have an EPP on file for your employees to abide by.

☐ ☐ **BMP-20 Planting of shade trees within 40 feet of the south side of the building elevation**

Well-placed trees can help keep your building cool in summer. If you choose a deciduous tree after the leaves drop in autumn, sunlight will warm your building through south and west-facing windows during the colder months. Well-designed landscaping can reduce cooling costs by 20%. Trees deliver more than energy and cost savings; they are important carbon sinks. Select varieties that require minimal care and water, and can withstand local weather extremes. Fruit or nut trees that produce in your area are great choices, providing you with local food as well as shade. Please use the site or landscape plan to indicate where trees are proposed and which species you are using.

☐ ☐ **BMP-21 Electrical Vehicle Charging Station(s)**

As plug-in hybrid electric vehicles (EV) and battery electric vehicle ownership is expanding, there is a growing need for widely distributed accessible charging stations. Please indicate on the site plan where the station will be.

☐ ☐ **BMP-22 Public Transit Accessibility**

Refer to <http://www.ridethevine.com/vine> and indicate on the site plan the closest bus stop/route. Please indicate if the site is accessed by transit or by a local shuttle. Provide an explanation of any incentives for visitors and employees to use public transit. Incentives can include bus passes, informational hand outs, construction of a bus shelter, transportation from bus stop, etc.

Already Plan
Doing To Do

☐ ☐ **BMP-23**

Site Design that is oriented and designed to optimize conditions for natural heating, cooling, and day lighting of interior spaces, and to maximize winter sun exposure; such as a cave.

The amount of energy a cave saves is dependent on the type of soil, the microclimate, and the user's request for temperature control. Inherently a cave or a building burned into the ground saves energy because the ground is a consistent temperature and it reduces the amount of heating and cooling required. On the same concept, a building that is oriented to have southern exposure for winter warmth and shading for summer cooling with an east-west cross breeze will naturally heat, cool, and ventilate the structure without using energy. Please check this box if your design includes a cave or exceptional site design that takes into consideration the natural topography and sitting. Be prepared to explain your approach and estimated energy savings.

☐ ☒ **BMP-24 Limit the amount of grading and tree removal**

Limiting the amount of earth disturbance reduces the amount of CO2 released from the soil and mechanical equipment. This BMP is for a project design that either proposes a project within an already disturbed area proposing development that follows the natural contours of the land, and that doesn't require substantial grading or tree removal.

☐ ☐ **BMP-25 Will this project be designed and built so that it could qualify for LEED?**

BMP-25 (a)	<input type="checkbox"/>	LEED™ Silver (check box BMP-25 and this one)
BMP-25 (b)	<input type="checkbox"/>	LEED™ Gold (check box BMP-25, BMP-25 (a), and this box)
BMP-25 (c)	<input type="checkbox"/>	LEED™ Platinum (check all 4 boxes)

Practices with Un-Measured GHG Reduction Potential

☐ ☐ **BMP-26 Are you, or do you intend to become a Certified Green Business or certified as a "Napa Green Winery"?**

As part of the Bay Area Green Business Program, the Napa County Green Business Program is a free, voluntary program that allows businesses to demonstrate the care for the environment by going above and beyond business as usual and implementing environmentally friendly business practices. For more information check out the Napa County Green Business and Winery Program at www.countyofnapa.org.

☐ ☐ **BMP-27 Are you, or do you intend to become a Certified "Napa Green Land"?**

Napa Green Land, fish friendly farming, is a voluntary, comprehensive, "best practices" program for vineyards. Napa Valley vintners and growers develop farm-specific plans tailored to protect and enhance the ecological quality of the region, or create production facility programs that reduce energy and water use, waste and pollution. By selecting this measure either you are certified or you are in the process of certification.

Already Plan
Doing To Do

- ☐ ☐ **BMP-28 Use of recycled materials**
There are a lot of materials in the market that are made from recycled content. By ticking this box, you are committing to use post-consumer products in your construction and your ongoing operations.

- ☐ ☐ **BMP-29 Local food production**
There are many intrinsic benefits of locally grown food, for instance reducing the transportation emissions, employing full time farm workers, and improving local access to fresh fruits and vegetables.

- ☐ ☒ **BMP-30 Education to staff and visitors on sustainable practices**
This BMP can be performed in many ways. One way is to simply put up signs reminding employees to do simple things such as keeping the thermostat at a consistent temperature or turning the lights off after you leave a room. If the project proposes alternative energy or sustainable winegrowing, this BMP could include explaining those business practices to staff and visitors.

4-H Livestock production education area focusing on farm to table.

- ☐ ☐ **BMP-31 Use 70-80% cover crop**
Cover crops reduce erosion and the amount of tilling which is required, which releases carbon into the environment.

- ☐ ☐ **BMP-32 Retain biomass removed via pruning and thinning by chipping the material and reusing it rather than burning on-site**
By selecting this BMP, you agree not to burn the material pruned on site.

- ☐ ☐ **BMP-33 Are you participating in any of the above BMPS at a 'Parent' or outside location?**

- ☐ ☐ **BMP-34 Are you doing anything that deserves acknowledgement that isn't listed above?**
