Hi Sean,

I was just in receipt of the notice of request from Meyers Water Company, Use Permit #P21-00091UP.

While I have no issue with the first action proposed (emergency repair and development of a water distribution system), the second action is one of which I am diametrically and vehemently opposed (build a 3 bedroom residence on the second floor).

Why should the property owners on Milton Road be responsible to bear the cost to build a residence that has no bearing nor correlation with operating the existing well? It appears as though the operator of the well is looking to take advantage of an exemption.

In the end, the homeowners pay for this requested permit. It needs to be amended.

Please advise as to how I can further challenge this proposal.

Thank you for your assistance.

A handwritten signature in blue ink that reads "Laura Crosby". The signature is fluid and cursive, with the first name "Laura" being more prominent than the last name "Crosby".
