SUBJECT: Vehicle License Fee

RECOMMENDATION

County Executive Officer requests discussion and possible direction on the Vehicle License Fee issue, as specified in the 2022 State Legislative Platform.

EXECUTIVE SUMMARY

Staff will provide an update on the Vehicle License Fee and the Legislative Subcommittee may provide direction.

ENVIRONMENTAL IMPACT

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.

BACKGROUND AND DISCUSSION

2022 State Platform:

Napa County, including its cities and town, are threatened to lose millions in revenues due to the implications of becoming a complete basic aid county for school funding purposes with no mechanism to pay for the Vehicle License Fee (VLF) swap. Napa County's school districts, with the exception of Napa Valley Unified School District (NVUSD), have historically been basic aid districts - property taxes exceed the district's Local Control Funding Formula (LCFF) limit and thus do not receive State General Funds to meet the minimum revenue limit established by the State. If Educational Revenue Augmentation Fund (ERAF) monies do not cover the "payment" of the VLF Swap to local governments, local governments are required to pull property taxes allocated to non-basic aid schools back to fund the Swap and the State General fund backfills the ERAF and property tax owed to the school district - in our case, NVUSD. The NVUSD is projected to become a basic aid

district no later than fiscal year 2022-2023. When it occurs it effectively will remove the ability to use property taxes from school districts that are non-basic aid to pay for the VLF swap, which will result in a potential \$40 million revenue loss for the County and its cities/town, collectively.

AMENDED IN ASSEMBLY APRIL 20, 2022

AMENDED IN ASSEMBLY MARCH 28, 2022

CALIFORNIA LEGISLATURE—2021–22 REGULAR SESSION

ASSEMBLY BILL

No. 1737

Introduced by Assembly Member Holden

January 31, 2022

An act to amend Sections 18897 and 18897.2 of, to add Division 40 (commencing with Section 60000) to, and to repeal Section 18897.6 of, the Health and Safety Code, to amend Section 1182.4 of the Labor Code, and to amend Section 11165.7 of the Penal Code, relating to children’s camps.

LEGISLATIVE COUNSEL’S DIGEST

AB 1737, as amended, Holden. Children’s camps: local registration and inspections.

Existing law requires the State Public Health Officer to establish rules and regulations establishing minimum standards for organized camps. Existing law requires the State Fire Marshal to adopt minimum fire safety regulations for organized camps. Existing law requires local health officers to enforce building standards relating to organized camps and the other rules and regulations adopted by the State Public Health Officer. Existing law defines “organized camp,” for these purposes, as a site with a program and facilities established for the primary purposes of providing an outdoor group living experience with social, spiritual, educational, or recreational objectives, for 5 days or more during one or more seasons of the year, except as specified. Existing law requires the Director of Public Health to consider the Camp Standards of the

American Camping Association when adopting rules and regulations pursuant to these provisions.

This bill would include “children’s camps” within the definition of organized camps and would define “children’s camp” as a camp that offers daytime or overnight experiences administered by adults who provide social, cultural, educational, recreational, or artistic programming to more than 5 children between 3 and 17 years of age for 5 days or longer during at least one season, except as specified. The bill would also delete the requirement for the Director of Public Health to consider the Camp Standards of the American Camping Association when adopting rules and regulations.

This bill would require the operator of a children’s camp to annually register with the local agency of the jurisdiction where the children’s camp is located at least 90 days before commencing operations. The bill would require each local agency to develop a registration form for a children’s camp to file with the local agency that includes specified information, including the name and location of the camp and the name and contact information of the camp operator and camp director. The bill would authorize each local agency to charge a registration fee that does not exceed the reasonable costs incurred by the local agency to register and inspect the children’s camps in its jurisdiction.

This bill would require each local agency to make at least one unannounced inspection and one scheduled inspection of each children’s camp within its jurisdiction during the calendar year and to make additional inspections in specified circumstances. If the local agency identifies any violation of these provisions during an inspection, the bill would require the local agency to issue a notice to correct the violation to the camp operator and the camp director. The bill would require the children’s camp to post the cited violation on the premises of the camp until mitigation of the violation has been confirmed by the local agency. The bill would require the local agency to conduct a followup inspection to confirm the mitigation of a cited violation. The bill would require the local agency to maintain all records of children’s camp inspections and make the records available for public inspection. By creating new duties for a local agency in the administration of children’s camps, the bill would impose a state-mandated local program.

This bill would require each children’s camp to develop and maintain an operating plan that includes specified information, including, but not limited to, the camp’s admission policy, proposed operating hours, proposed fee schedule, health and safety policies, and discipline policies.

The bill would require each children's camp to develop and maintain an emergency action plan that contains procedures to address emergency situations, including, but not limited to, natural disasters, lost campers, fires, severe illnesses and injuries, and active shooters. The bill would require all camp staff to be trained in implementation of the operating plan and emergency action plan.

~~This bill would require a camp operator or camp director to check the background and character of each prospective camp staffer or counselor, regardless of age, on an annual basis through character references, background checks, and a sex offender registry information check. The bill would require each children's camp to ensure that a full-time adult health supervisor, as defined, is available on the premises of the children's camp whenever campers are present. The bill would require a camp operator, camp director, and all camp staff staff member, counselor, or regular volunteer of a children's camp to complete training in child abuse and neglect identification and training in child abuse and neglect reporting, as specified. specified, and to undergo a background check pursuant to a specified provision.~~

This bill would require each local agency that registers a children's camp pursuant to these provisions to submit an annual report to the State Department of Public Health that contains specified information, including the names of the children's camps in its jurisdiction, the number of attending campers, and any violations cited by the local agency. The bill would require the State Department of Public Health to develop and maintain a public database on its internet website that contains all the information submitted by local agencies and an annual summary, as specified.

Existing law requires a mandated reporter to report whenever they, in their professional capacity or within the scope of their employment, have knowledge of or observed a child who the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. Under existing law, failure by a mandated reporter to report an incident of known or reasonably suspected child abuse or neglect is a misdemeanor punishable by up to 6 months of confinement in a county jail, by a fine of \$1,000, or by both that imprisonment and fine. Existing law includes an administrator of a public or private day camp as a mandated reporter.

This bill would instead make an administrator or a full-time employee of a children's camp a mandated reporter. By expanding the scope of

individuals classified as mandated reporters, the bill would expand the scope of a crime and impose a state-mandated local program.

The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.
