TO: Napa County Flood Control and Water Conservation District

FROM: Richard Thomasser - District Manager

REPORT BY: Andrew Butler - District Engineer

SUBJECT: Napa River/ Napa Creek Flood Protection Project Update

RECOMMENDATION

Update on the progress of the Napa River/Napa Creek Flood Protection Project. (No Fiscal Impact; Discretionary)

BACKGROUND

District staff are currently engaged in completion of the last two increments of the Napa River/Napa Creek Flood Protection Project (Project) that the U.S. Army Corps of Engineers (USACE) has determined to be in the federal interest to pursue. These increments are the Floodwalls North of the Bypass Project and the Imola to Hatt Floodwalls Project. At the current time, staff are progressing the design of the Floodwalls North of the Bypass Project towards a projected construction start in late 2025. Staff are also working with the USACE to outline their role in approval/acceptance of the NCFCWCD’s design and construction efforts on these projects. Staff will present an update on the activities in which staff are currently engaged in pursuit of these goals.

FISCAL & STRATEGIC PLAN IMPACT

Is there a Fiscal Impact? No

ENVIRONMENTAL IMPACT

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.
