BACKGROUND AND DISCUSSION

Currently, North Valley Behavioral Health provides inpatient psychiatric services at two locations: Plumas Court and Stabler Lane, both located in Yuba City, California. Services are provided to stabilize uninsured adults and Medi-Cal beneficiaries who are deemed an imminent risk to themselves, others, or are gravely disabled because of a mental disorder. This is an acute care, locked facility. Clients can only be referred to these facilities by HHSA Mental Health Division's Crisis Stabilization Services Program after being fully evaluated and considered to be appropriate for this type of placement. Contracting with these facilities helps ensure that psychiatric inpatient resources are available for HHSA Mental Health Division clients in the event that more locally based facilities are unavailable, or unable to accept referrals, due to capacity or other issues.

Approval of this amendment will implement a contract maximum increase, bringing the maximum from \$600,000 to \$1,000,000. Facility rates are comparable to other inpatient units under County contract. Rates are all-inclusive and are the same for both Medi-Cal and uninsured clients. North Valley Behavioral Health’s two facilities in this agreement allow Napa County's CSS program greater ability to place clients. An increase in placements has prompted the need for this mid-fiscal year amendment to increase the current contract maximum.

Due to limited placement options within Napa County for individuals with severe mental illness in need of acute care, utilization of out of county facilities is often necessary.
