BACKGROUND AND DISCUSSION

Wayfinder Family Services has become the largest private provider of adoptions from foster care in California, specializing in permanency-focused foster care and kinship care. They have been actively engaged in Continuum of Care workgroups for California Department of Social Services (CDSS) and multiple counties as they have made the transition within their foster care and adoption programs to align with the implementation of Resource Family Approval (RFA). Leadership within these workgroups led to a Wayfinder contract with CDSS to provide RFA training for county social workers. Wayfinder has incorporated a trauma-informed and permanency lens throughout their RFA pre-approval training, as well as customizing additional training specifically for the growing number of relatives raising relatives within the foster care system.

This amendment includes language allowing the Director of Health and Human Services to approve a budget modification to the maximum amount of individual budget items as long as the dollar amount of any individual budget item is not reduced to less than 10% of its original amount, and the total dollar amount for all budget items remains unchanged.

Furthermore, this amendment will enable Wayfinder to provide more make-up sessions of the Resource Family Pre-Approval trainings and additional training for participants who have missed a class.
