**BACKGROUND AND DISCUSSION**

The contractor is an established organization that provides mental health and substance use disorder treatment to youth clients in Napa County. The contractor is certified by the State of California, Department of Health Care Services (DHCS) as a Drug Medi-Cal provider. As of 12/15/2017, Napa County holds a contract with DHCS to provide enhanced substance use disorder treatment under the Drug Medi-Cal Organized Delivery System (DMC-ODS).

On April 23, 2019, the County executed an agreement with the contractor to provide outpatient treatment services to Napa County youth dealing with substance use disorders. The contractor holds the necessary state certification to provide these services and has been providing similar services through agreements with both the Probation Department and Health and Human Services Agency. This Agreement consolidated those services and enabled the County to receive partial reimbursement for the cost of these services through the Federal Medicaid system.

This amendment will modify the Scope of Work to include outreach services in order to increase referrals to the program. This amendment also modifies the Compensation exhibit to include the following: a) an increase to the Drug Medi-Cal rates for services covered by this contract; b) a decreased contract maximum based on an updated treatment utilization estimate; and c) the inclusion of a budget for outreach services. The contractor has used 30% or less of available contract maximum in the prior two years. This amendment will better align utilization with the contract maximum.
