BACKGROUND AND DISCUSSION

On June 15, 2010, at the request of 50% of the hoteliers subject to the assessment pursuant to the Property and Business Improvement District Law of 1994, the Board of Supervisors created the Napa Valley Tourism Improvement District (NVTID). The purpose of the NVTID, as defined in the District Management Plan, is to promote tourism throughout Napa County by investing in marketing and tourist-serving programs. The activities of NVTID are funded by a 2% assessment on gross short-term room rentals at lodging businesses. 1.5% of funds generated are under the authority of the Napa Valley Tourism Corporation for management and expenditure and the remaining 0.5% remain under the authority of the home jurisdiction to determine how to spend.

In accordance with the District Management Plan, the Napa County Board of Supervisors has an Unincorporated Tourism Improvement District Management Committee that meets to make recommendations on how to expend the County's 0.5% and oversees any tourism programs supported by this funding. The purpose of today's item is for Visit Napa Valley to seek Board approval of the annual agreement recommended by the Unincorporated Tourism Improvement District Management Committee.

The Unincorporated Tourism Improvement District Advisory committee is recommending the approval of an agreement with Visit Napa Valley this year in the amount of \$100,000. The agreement with Visit Napa Valley will be limited to paid advertising to promote consumer awareness of the Napa Valley with Facebook, Google

Display Network, Pandora, Clear Channel and more. The paid media will reinforce the Napa Valley brand to drive awareness and interest in the Napa Valley among highly affluent travelers, inspiring visitation by driving prospects to the website.

The paid advertising media will include what visitors can expect from Napa Valley during and after the pandemic. The Unincorporated Tourism Improvement District Management Committee will continue to evaluate revenues and make recommendations as needed.
