The Mental Health Division of the Health and Human Services Agency (HHS) developed the County's Mental Health Services Act (MHSA) Community Services and Supports (CSS) Plan with stakeholder input through an extensive community planning process, which identified an Adult Recovery and Resource Center (ARRC) as a priority need for adults with serious mental illness as well as their families.

The AARC provides a range of bilingual and multicultural services for mental health consumers and family members including:

- One-on-one peer coaching that incorporates goal setting, connections to resources and weekly check-ins;
- Peer and family support groups facilitated by teams of providers and consumers working together;
- Wellness Education, including hands-on Mindfulness, Nutrition, Cooking, Gardening, Exercise, and a variety of Health workshops as well as Lesbian Gay Bisexual Transgender Queer support groups for adults and older

adults;

- Leadership and volunteer opportunities that build on an individual's strengths and interests; and
- Co-located Wellness and Recovery support services, including Mental and Physical Health, Substance Abuse, Elder Support and Self-Sufficiency focused programs; and
- Pandemic Support and Recovery Coordination.
