BACKGROUND AND DISCUSSION

In 2016, Sheriff's Office recognized the need to reduce injuries, worker's compensation claims and improve overall wellness of the Sheriff's Special Weapons and Tactics (SWAT) Team. The original premise was to engage the SWAT Team in an injury prevention and wellness pilot program (the program) designed by B.I.O. Biometrics Innovative Options Consultants, LLC (B.I.O.). If that program were successful, would be introduced to the entire office. County Risk Management was also involved in that decision. Sheriff's Office and Risk Management shared the cost of service during the pilot program. The SWAT Team gained immediate results. The Sheriff's Office decided to continue the program, expanding it to the rest of the office. In July 2018 and July 2019, the agreement was renewed, allowing more staff to participate.

The Sheriff's Office is committed to providing staff comprehensive solutions like Dr. Joel Fay's Peer Support services and the B.I.O. program, which work to offset the negative impacts of the law enforcement profession. The B.I.O. program focuses specifically on the health of Sheriff's Office staff through this injury prevention and wellness program. B.I.O. accomplishes successes by collecting and analyzing data related to sleep, diet, blood pressure, heart rate, body fat, cardiovascular fitness and strength of participants. The information allows B.I.O. to create a personalized program that addresses participants' risk factors, and teaches staff how to maintain a healthier lifestyle.

Approval of Amendment No. 3 to Agreement No. 170580D will allow Sheriff's Office to continue offering the program to interested staff by extending the term through June 30, 2025 with an automatic renewal of two additional one-year terms with no net change to the maximum compensation rate of \$40,000 per fiscal year for

up to 22 participants.
