BACKGROUND AND DISCUSSION

Information Technology Services (ITS) identified a need to reorganize their administration, records and mail, and digitization teams under one unit. Currently, the administration and digitization teams are supervised by a Supervising Staff Services Analyst, and the records and mail team is supervised by an Information Systems Manager. In order to meet the needs of ITS and its customers, and to most efficiently manage all identified areas, ITS requested to reclassify the vacant Supervising Staff Services Analyst to a Staff Services Manager.

The requested Staff Services Manager allocation will be responsible for oversight and administration of multiple ITS budget units, overseeing ITS' financial goals, objectives, budget needs, financial plans, and accounting practices, and participating in the development and implementation of ITS goals, objectives, priorities, and policies, as well as direct oversight of the mail and records, administration and digitization teams. Human Resources has reviewed all available information and determined that the appropriate classification to manage ITS Administration and Records is a Staff Services Manager.

Therefore, the Director of Human Resources and the Chief Information Officer request adoption of a
