BACKGROUND AND DISCUSSION

Agreement No. 170682B provides for reimbursement of costs associated with the performance of pest detection trapping in Napa County for Mediterranean, Oriental and Melon fruit flies, Spongy Moth, Japanese Beetle, sentinel grape moths, olive moth, additional Glassy-winged Sharpshooter (GWSS) traps in vineyards, Vine Mealy Bug (VMB), Spotted Lantern Fly (SLF) and Western Grapeleaf Skeletonizer. This agreement allocates \$475,751 to perform program activities (e.g. identification of suitable insect trap locations, subsequent placement and inspection of insect traps, and related record keeping) as required. The activities performed in the fulfillment of this agreement are foundational and critically important to preventing the introduction and establishment of invasive insect pests within the County, which have the potential to negatively impact agricultural crops, home gardens and native habitats.

This agreement is coming late to the Board due to delays in Federal funding.
