## **BACKGROUND AND DISCUSSION**

HHSA’s Behavioral Health division operates a Drug Medi-Cal Organized Delivery System (DMC-ODS) that provides for a wide range of treatment services across a continuum of care for substance use treatment. Services must be provided according to local, state, and federal policies and regulations. This continuum of care is built upon the American Society of Addiction Medicine (ASAM) Criteria for substance use disorder treatment services.

Successful Alternatives for Addiction Counseling Services, Inc., and MedMark Treatment Centers - Fairfield, Inc., provide state-mandated NTP services to Napa County residents. Both providers are located in Solano County and are the closest and most accessible programs for Napa County residents, as there are no programs providing these services located in Napa County.

These agreements are being amended to align contract expectations with state mandated CalAIM requirements and payment reform financial obligations.
