BACKGROUND AND DISCUSSION

The Electronic Recording Delivery Act of 2004 (Act), Government Code section 27393 - 27399, established an electronic recording delivery (e-recording) system and authorizes the California Attorney General to oversee the process and for counties to participate via Resolution. The Act also requires any county establishing an e-recording system to pay the Attorney General for the direct costs related to the development and adoption of corresponding regulations and oversight. Napa County was one of the original 21 counties to participate in the process. There are now 52 counties in the program.

The Act permits county recorders to establish a fee of up to one dollar (\$1.00) per recorded document to cover startup costs of the Attorney General, development of the e-recording system, the review and approval of vendors and authorized submitters and security testing. Napa County began collecting this fee in March 2010. The fees are deposited in the Recorder Electronic Recording Special Revenue Fund. Annual costs for Department of Justice oversight are paid from this fund.

The estimated cost of the program for 2021-2022 is \$116,276 of which Napa County's proportionate share is \$527 Napa County's total share since inception including the 2021-2022 amount will be \$25,837. Napa County began electronic recording in June 2016. Approximately 60% of our daily documents are now recorded electronically.
