

“B”

Recommended Conditions of Approval and Final Agency Approval Memos

Barnett Vineyards Winery Use Permit (P19-00125-UP), Viewshed
Protection Program (P20-00121-VIEW), and Exception to the Road
and Street Standards
Planning Commission Hearing Date January 7, 2026

RECOMMENDED CONDITIONS OF APPROVAL

BARNETT VINEYARDS WINERY USE PERMIT, VIEWSHED, AND EXCEPTION TO THE ROAD AND STREET STANDARDS

**P19-00125-UP AND P20-00121-VIEW
4070 SPRING MOUNTAIN ROAD, ST. HELENA, CA 94574
APN 020-300-047-000**

This permit encompasses and shall be limited to the project commonly known as **Barnett Vineyards Winery**, located at **4070 Spring Mountain Road**. Part I encompasses the Project Scope and general conditions pertaining to statutory and local code references, project monitoring, and the process for any future changes or activities. Part II encompasses the ongoing conditions relevant to the operation of the project. Part III encompasses the conditions relevant to construction and the prerequisites for a Final Certificate of Occupancy. It is the responsibility of the permittee to communicate the requirements of these conditions and mitigations (if any) to all designers, contractors, employees, and guests of the winery to ensure compliance is achieved.

Where conditions are not applicable or relevant to this project, they shall be noted as “Reserved” and therefore have been removed.

When modifying a legally established entitlement related to this project, these conditions are not intended to be retroactive or to have any effect on existing vested rights except where specifically indicated.

PART I

1.0 PROJECT SCOPE

The permit encompasses and shall be limited to:

- 1.1 Approval to modify an existing 20,000 gallon per year 7, 046 sq. ft. winery consisting of a 3,276 sq. ft. production cave, 1,470 sq. ft. Production building, and a 2,300 sq. ft. covered crush/fermentation pad first approved under a Small Winery Exemption permit (Permit No. SW-158889) issued on September 12, 1988, to recognize and establish the following uses and activities under a Use Permit and allow the following, which supersedes Small Winery Exemption Permit No. SW-158889 :
 - a. Increase production capacity from 20,000 gallons per year to 30,000 gallons per year;
 - b. Construct a new 1,700 square foot structure for uses accessory to a winery, including a tasting room and office, in conformance to the Viewshed Protection Program;
 - c. Excavation of approximately 1,800 cubic yards of spoils associated with the construction of structural pads for the new accessory structures and the construction of improvements to the project driveway, as detailed on the plans prepared by Madrone Engineering, dated April 8, 2022;
 - d. Removal of three (3) oak trees associated with driveway improvements, and the planting of nine (9) replacement oak trees with a minimum root base of 15-gallons (at a 3:1 ratio) on the project parcel;

- e. Increase the number of onsite parking spaces from six (6) to twelve (12);
- f. Construct a new 12,000 gallon fire protection water tank (located approximately 300 feet southeast from the proposed hospitality building);
- g. Installation of a Public Water System;
- h. Installation of wastewater improvements, as detailed in the Wastewater Feasibility Report prepared by Madrone Engineering, dated February 12, 2020;
- i. Increase employment from two (2) full-time employees to nine (9) full-time employees;
- j. Visitation, tours and tastings, and a marketing plan as set forth in Conditions of Approval (COAs) Nos. 4.1 through 4.3 below;
- k. On-premises consumption of wines produced on-site on the outdoor patio, outside of the northeastern cave portal, in accordance with Business and Professions Code Sections 23358, 23390 and 23396.5;
- l. Hours of operation seven days a week: production 8:00 a.m. to 5:00 p.m., and
- m. Landscaping, and other improvements associated with wineries.

The winery shall be designed in substantial conformance with the submitted site plan, elevation drawings, and other submittal materials and shall comply with all requirements of the Napa County Code (the County Code). It is the responsibility of the permittee to communicate the requirements of these conditions and mitigations (if any) to all designers, contractors, employees, and guests of the winery to ensure compliance is achieved. Any expansion or change in winery use or alternative locations for fire suppression or other types of water tanks shall be approved in accordance with the County Code and may be subject to the permit modification process.

2.0 STATUTORY AND CODE SECTION REFERENCES

All references to statutes and code sections shall refer to their successor as those sections or statutes may be subsequently amended from time to time.

3.0 MONITORING COSTS

All staff costs associated with monitoring compliance with these conditions, previous permit conditions, and project revisions shall be borne by the permittee and/or property owner. Costs associated with conditions of approval and mitigation measures that require monitoring, including investigation of complaints, other than those costs related to investigation of complaints of non-compliance that are determined to be unfounded, shall be charged to the property owner or permittee. Costs shall be as established by resolution of the Board of Supervisors in accordance with the hourly consulting rate established at the time of the monitoring and shall include maintenance of a \$500 deposit for construction compliance monitoring that shall be retained until issuance of a Final Certificate of Occupancy. Violations of conditions of approval or mitigation measures caused by the permittee's contractors, employees, and/or guests are the responsibility of the permittee.

The Planning Commission may implement an audit program if compliance deficiencies are noted. If evidence of a compliance deficiency is found to exist by the Planning Commission at some time in the future, the Planning Commission may institute the program at the applicant's expense (including requiring a deposit of funds in an amount determined by the Commission) as needed

until compliance assurance is achieved. The Planning Commission may also use the data, if so warranted, to commence revocation proceedings in accordance with the County Code.

PART II

4.0 OPERATIONAL CHARACTERISTICS OF THE PROJECT

Permittee shall comply with the following during operation of the winery:

4.1 GENERAL PROVISIONS

Consistent with the County Code, tours and tastings and marketing may occur at a winery only where such activities are accessory and “clearly incidental, related, and subordinate to the primary operation of the winery as a production facility.”

Tours and tastings (defined below) may include food and wine pairings, where all such food service is provided without charge except to the extent of cost recovery and is incidental to the tasting of wine. Food service may not involve menu options and meal service such that the winery functions as a café or restaurant.

Retail sales of wine shall be permitted as set forth in the County Code.

4.2 TOURS AND TASTINGS/VISITATION

Tours and tastings shall be by appointment only and shall be limited to the following:

- a. Frequency: Seven (7) days per week, Monday through Sunday
- b. Maximum number of persons per day: 30
- c. Maximum number of persons per week: 210
- d. Hours of visitation: 8:00 a.m. to 4:00 p.m.
- e. Daily tours and tastings shall not occur on days with marketing events
- f. Maximum number of persons per day: 21, maximum number of persons per week: 97, until such a time that driveway improvements have been constructed. Driveway improvements shall be constructed by October 15, 2026. If driveway improvements have not been constructed by this time, visitation shall revert back to the levels originally approved in the winery’s original Small Winery Exemption Permit (SW-158889), as detailed in Conditions of Approval 4.20.b. through 4.20.d.

“Tours and tastings” means tours of the winery and/or tastings of wine, where such tours and tastings are limited to persons who have made unsolicited prior appointments for tours or tastings. To the maximum extent feasible, scheduling of visitors shall not occur during peak travel times between 4:30 to 5:30 p.m. on weekdays.

A logbook (or similar record) shall be maintained to document the number of visitors to the winery (for either tours and tastings or marketing events), and the dates of the visits.

This record of visitors shall be made available to the Planning, Building, and Environmental Services (PBES) Department upon request.

4.3 MARKETING

a. **Small Event**

1. Frequency: Four (4) times per year
2. Maximum number of persons: 20
3. Time of Day: 10:00 a.m. to 9:00 p.m.
4. Food service shall be provided by offsite catering only

b. **Medium Event**

1. Frequency: Three (3) times per year
2. Maximum number of persons: 60
3. Time of Day: 10:00 a.m. to 9:00 p.m.
4. Food service shall be provided by offsite catering only
5. Visitors shall be brought to the site via a shuttle or bus service

c. **Large Event**

1. Frequency: Two (2) times per year
2. Maximum number of persons: 100
3. Time of Day: 10:00 a.m. to 9:00 p.m.
4. Food service shall be provided by offsite catering only
5. Visitors shall be brought to the site via a shuttle or bus service

- d. Driveway improvements shall be constructed by October 15, 2026. If driveway improvements have not been constructed by this time, marketing levels shall revert back to the levels originally approved in the winery's original Small Winery Exemption Permit (SW-158889), as detailed in Conditions of Approval 4.20.b. through 4.20.d.

"Marketing of wine" means any activity of a winery which is conducted at the winery on a prearranged basis for the education and development of customers and potential customers with respect to wine which can be sold at the winery on a retail basis pursuant to the County Code. Marketing of wine may include cultural and social events directly related to the education and development of customers and potential customers provided such events are clearly incidental, related and subordinate to the primary use of the winery. Marketing of wine may include food service, including food and wine pairings, where all such food service is provided without charge except to the extent of cost recovery.

Business events are similar to cultural and social events, in that they will only be considered as "marketing of wine" if they are directly related to the education and development of customers and potential customers of the winery and are part of a marketing plan approved as part of the winery's Use Permit. To be considered directly related to the education and development of customers or potential customers of the winery, business

events must be conducted at no charge except to the extent of cost recovery, and any business content unrelated to wine must be limited.

Careful consideration shall be given to the intent of the event, the proportion of the business event's non-wine-related content, and the intensity of the overall marketing plan (County Code).

All marketing event activity, shall cease by 9:00 p.m. If any event is held which will exceed the available on-site parking, the permittee shall prepare an event-specific parking plan which may include, but not be limited to, valet service or off-site parking and shuttle service to the winery.

Auction Napa Valley (ANV) events need not be included in a participating winery's marketing plan because they are covered by ANV's Category 5 Temporary Permit. The winery may utilize any ANV event authorized in this permit for another charitable event of similar size.

4.4 ON-PREMISES CONSUMPTION

In accordance with State law and the PBES Director's July 17, 2008, memo, "Assembly Bill 2004 (Evans) & the Sale of Wine for Consumption On-Premises," on-premises consumption of wine produced on-site and purchased from the winery may occur solely on the outdoor patio, outside of the northeastern cave portal, on the submitted site plans. Any and all visitation associated with on-premises consumption shall be subject to the maximum per person weekday and weekend daily tours and tastings visitation limitation and/or applicable limitations of permittee's marketing plan set forth in COA Nos.4.2 and 4.3 above.

4.5 RESIDENCE OR NON-WINERY STRUCTURES

Unless specifically authorized by this permit or a previously approved permit, the existing single-family residence and Accessory Dwelling Unit (ADU) shall not be used for commercial purposes or in conjunction with the operation and/or visitation/marketing program for the winery. If the residence is rented, it shall only be rented for periods of 30 days or more, pursuant to the County Code.

4.6 GRAPE SOURCE

At least 75% of the grapes used to make the winery's still wine or the still wine used by the winery to make sparkling wine shall be grown within Napa County provided that the winery's original 20,000 gallons of production are not subject to the County's 75% grape source rule. The permittee shall keep records of annual production documenting the source of grapes to verify that 75% of the annual production is from Napa County grapes. The report shall recognize the Agriculture Commission's format for County of origin of grapes and juice used in the Winery Production Process. The report shall be provided to the PBES Department upon request, but shall be considered proprietary information and not available to the public.

4.7 COMPLIANCE REVIEW

Permittee shall obtain and maintain all permits (use permits and modifications) and licenses from the California Department of Alcoholic Beverage Control (ABC) and United States Tax and Trade Bureau (TTB), and California Department of Food and Agriculture (CDFA) Grape Crush Inquiry data, all of which are required to produce and sell wine. In the event the required ABC and/or TTB permits and/or licenses are suspended or revoked, permittee shall cease marketing events and tours and tastings until such time as those ABC and/or TTB permits and licenses are reinstated.

Visitation logbooks, visitor reports, custom crush client records, and any additional documentation determined by Staff to be necessary to evaluate compliance may be requested by the County for any code compliance. The permittee (and their successors) shall be required to participate fully in the winery code compliance review process.

4.8 RENTAL/LEASING

No winery facilities, or portions thereof, including, without limitation, any kitchens, barrel storage areas, or warehousing space, shall be rented, leased, or used by entities other than persons producing and/or storing wine at the winery, such as alternating proprietors and custom producers, except as may be specifically authorized in this Permit or pursuant to the Temporary Events Ordinance (County Code Chapter 5.36).

4.9 GROUND WATER MANAGEMENT – WELLS

This condition is implemented by the Planning, Building, and Environmental Services Department:

The permittee shall be required (at the permittee's expense) to record well monitoring data (specifically, static water level no less than quarterly, and the volume of water no less than monthly). Such data will be provided to the County, if the PBES Director determines that substantial evidence¹ indicates that water usage at the winery is affecting, or would potentially affect, groundwater supplies or nearby wells. If data indicates the need for additional monitoring, and if the applicant is unable to secure monitoring access to neighboring wells, onsite monitoring wells may need to be established to gauge potential impacts on the groundwater resource utilized for the project. Water usage shall be minimized by use of best available control technology and best water management conservation practices.

In order to support the County's groundwater monitoring program, well monitoring data as discussed above will be provided to the County if the Director of PBES determines that such data could be useful in supporting the County's groundwater monitoring program. The project well will be made available for inclusion in the groundwater monitoring network if the Director of PBES determines that the well could be useful in supporting the program.

¹ Substantial evidence is defined by case law as evidence that is of ponderable legal significance, reasonable in nature, credible and of solid value. The following constitute substantial evidence: facts, reasonable assumptions predicated on facts; and expert opinions supported by facts. Argument, speculation, unsubstantiated opinion or narrative, or clearly inaccurate or erroneous information do not constitute substantial evidence.

In the event that changed circumstances or significant new information provide substantial evidence that the groundwater system referenced in the Use Permit would significantly affect the groundwater basin, the PBES Director shall be authorized to recommend additional reasonable conditions on the permittee, or revocation of this permit, as necessary to meet the requirements of the County Code and to protect public health, safety, and welfare.

4.10 AMPLIFIED MUSIC

There shall be no amplified sound system or amplified music utilized outside of approved, enclosed, winery buildings.

4.11 TRAFFIC

To the maximum extent feasible, scheduling of reoccurring vehicle trips to and from the site for employees and deliveries shall not occur during peak travel times (between 4:30 to 5:30 p.m. on weekdays). All road improvements on private property required per Engineering Services shall be maintained in good working condition and in accordance with the Napa County Roads and Streets Standards.

4.12 PARKING

The location of visitor parking and truck loading zone areas shall be identified along with proposed circulation and traffic control signage (if any).

Parking shall be limited to approved parking spaces only and shall not occur along access or public roads or in other locations except during harvest activities and approved marketing events. In no case shall parking impede emergency vehicle access or public roads.

4.13 BUILDING DIVISION – USE OR OCCUPANCY CHANGES

Please contact the Building Division with any questions regarding the following:

In accordance with the California Building Code (CBC), no change shall be made in the use of occupancy of an existing building unless the building is made to comply with the requirements of the current CBC for a new building.

4.14 FIRE DEPARTMENT – TEMPORARY STRUCTURES

Please contact the Fire Department with any questions regarding the following:

The permittee and/or designee shall obtain a tent permit from the Fire Department for any temporary structures utilized for authorized marketing events allowed per COA No. 4.3 above.

4.15 NAPA COUNTY MOSQUITO ABATEMENT PROGRAM **[RESERVED]**

4.16 GENERAL PROPERTY MAINTENANCE – LIGHTING, LANDSCAPING, PAINTING, OUTDOOR EQUIPMENT STORAGE, AND TRASH ENCLOSURE AREAS

- a. All lighting shall be permanently maintained in accordance with the lighting and building plans approved by the County. Lighting utilized during harvest activities is exempt from this requirement.
- b. All landscaping and outdoor screening, storage, and utility structures shall be permanently maintained in accordance with the landscaping and building plans approved by the County. No stored items shall exceed the height of the screening. Exterior winery equipment shall be maintained so as to not create a noise disturbance or exceed noise thresholds in the County Code.
- c. The colors used for the roof, exterior walls and built landscaping features of the winery shall be limited to earth tones that will blend the facility into the colors of the surrounding site-specific vegetation. The permittee shall obtain the written approval of the Planning Division prior to any change in paint colors that differs from the approved building permit. Highly reflective surfaces are prohibited.
- d. Designated trash enclosure areas shall be made available and properly maintained for intended use.

4.17 NO TEMPORARY SIGNS

Temporary off-site signage, such as “A-Frame” signs, is prohibited.

4.18 COMPLIANCE WITH OTHER DEPARTMENTS AND AGENCIES – OPERATIONAL CONDITIONS

The attached project conditions of approval include all of the following County Divisions, Departments and Agencies’ requirements. Without limiting the force of those other requirements which may be applicable, the following are incorporated by reference as enumerated herein:

- a. Environmental Health Division operational conditions as stated in their Memorandum dated October 16, 2024.
- b. Department of Public Works operational conditions as stated in their Memorandum dated March 4, 2025.
- c. Fire Department operational conditions as stated in their Memorandum dated July 10, 2025.
- d. Engineering Division operational conditions as stated in their Memorandum dated December 23, 2025.

The determination as to whether or not the permittee has substantially complied with the requirements of other County Divisions, Departments and Agencies shall be determined by those County Divisions, Departments or Agencies. The inability to substantially comply with the requirements of other County Divisions, Departments and Agencies may result in the need to modify this permit.

4.19 OPERATIONAL MITIGATION MEASURES **[RESERVED]**

4.20 OTHER CONDITIONS APPLICABLE TO THE OPERATIONAL ASPECTS OF THE PROJECT

- a. Greenhouse Gas Best Management Practices – Operational items checked on the Voluntary Best Management Practices Checklist for Development Projects by the applicant, shall be implemented and evidence of implementation shall be provided to County PBES staff upon request.
- b. No more than 24 persons (visitation, marketing, employment, residence, etc.) shall be present on the project parcel for 60 days or more per year, until such a time that the permittee obtains a permit to operate with the Division of Environmental Health for a Public Water System.
- c. Maximum number of persons per day: 21, maximum number of persons per week: 97, permittee shall produce no more than 20,000 gallons per year and have no more than five (5) full-time employees until such a time that driveway improvements have been constructed, then operations may increase as described in COA 1.1 herein. Driveway improvements shall be constructed by October 15, 2026. If driveway improvements have not been constructed by this time, visitation, production, and employment levels shall revert back to the levels originally approved in the winery's original Small Winery Exemption Permit (SW-158889).
- d. Maximum number of persons per day: 21, maximum number of persons per week: 97, permittee shall produce no more than 20,000 gallons per year and have no more than five (5) full-time employees until such a time that a permit to operate with the Division of Environmental Health has been obtained for wastewater improvements, as detailed in the Wastewater Feasibility Report prepared by Madrone Engineering, dated February 12, 2020.

4.21 PREVIOUS CONDITIONS **[RESERVED]**

PART III

5.0 PREREQUISITE FOR ISSUANCE OF PERMITS

5.1 PAYMENT OF FEES

No building, grading or sewage disposal permits shall be issued or other permits authorized until all accrued planning permit processing fees have been paid in full. This includes all fees associated with plan check and building inspections, associated development impact fees established by County Ordinance or Resolution, and the Napa County Affordable Housing Mitigation Fee in accordance with County Code.

6.0 GRADING/DEMOLITION/ENVIRONMENTAL/BUILDING PERMIT/OTHER PERMIT PREREQUISITES

Permittee shall comply with the following with the submittal of a grading, demolition, environmental, building and/or other applicable permit applications.

6.1 COMPLIANCE WITH OTHER DEPARTMENTS AND AGENCIES – PLAN REVIEW, CONSTRUCTION AND PREOCCUPANCY CONDITIONS

The attached project conditions of approval include all of the following County Divisions, Departments and Agencies' requirements. The permittee shall comply with all applicable building codes, zoning standards, and requirements of County Divisions, Departments and Agencies at the time of submittal and may be subject to change. Without limiting the force of those other requirements which may be applicable, the following are incorporated by reference as enumerated herein:

- a. Environmental Health Division plan review/construction/preoccupancy conditions as stated in their Memorandum dated October 16, 2024.
- b. Department of Public Works plan review/construction/preoccupancy conditions as stated in their Memorandum dated March 4, 2025.
- c. Fire Department plan review/construction/preoccupancy conditions as stated in their Memorandum dated July 10, 2025.
- d. Engineering Division plan review/construction/preoccupancy conditions as stated in their Memorandum dated December 23, 2025.

The determination as to whether or not the permittee has substantially complied with the requirements of other County Divisions, Departments and Agencies shall be determined by those County Divisions, Departments or Agencies. The inability to substantially comply with the requirements of other County Divisions, Departments and Agencies may result in the need to modify the permit.

6.2 BUILDING DIVISION – GENERAL CONDITIONS

- a. A building permit shall be obtained for all construction occurring on the site not otherwise exempt by the California Building Code (CBC) or any State or local amendment adopted thereto.
- b. If there are any existing structures and/or buildings on the property that will need to be removed to accommodate construction activities, a separate demolition permit shall be required from the Building Division prior to removal. The permittee shall provide a "J" number from the Bay Area Air Quality Management District (BAAQMD) at the time the permittee applies for a demolition permit if applicable.
- c. All areas of newly designed and newly constructed buildings, facilities and on-site improvements must comply with the CBC accessibility requirements, as well as, American with Disability Act requirements when applicable. When alterations or additions are made to existing buildings or facilities, an accessible path of travel to

the specific area of alteration or addition shall be provided as required per the CBC.

6.3 LIGHTING – PLAN SUBMITTAL

- a. Two (2) copies of a detailed lighting plan showing the location and specifications for all lighting fixtures to be installed on the property shall be submitted for Planning Division review and approval. All lighting shall comply with the CBC.
- b. All exterior lighting, including landscape lighting, shall be shielded and directed downward, shall be located as low to the ground as possible, shall be the minimum necessary for security, safety, or operations; on timers; and shall incorporate the use of motion detection sensors to the greatest extent practical. All lighting shall be shielded or placed such that it does not shine directly on adjacent properties or impact vehicles on adjacent streets. No flood-lighting or sodium lighting of the building is permitted, including architectural highlighting and spotting. Low-level lighting shall be utilized in parking areas as opposed to elevated high-intensity light standards. Lighting utilized during harvest activities is exempt from this requirement.

6.4 LANDSCAPING – PLAN SUBMITTAL

- a. Two (2) copies of a detailed final landscaping and irrigation plan, including parking details, shall be submitted with the building permit application package for the Planning Division's review and approval prior to the issuance of any building permit associated with this Use Permit. The plan shall be prepared pursuant to the County's Water Efficient Landscape Ordinance (Chapter 18.118 of the County Code) requirements in effect at the time of building permit application submittal, as applicable, and shall indicate the names and locations of all plant materials to be used along with their method of maintenance.
- b. Plant materials shall be purchased locally when practical, and to the greatest extent possible, the plant materials shall be the same native plants found in Napa County. The Agricultural Commissioner's office shall be notified of all impending deliveries of live plants with points of origin outside of Napa County.
- c. No trees greater than 6" diameter at breast height shall be removed, except for those identified on the submitted site plan. Any Oak trees removed as a result of the project shall be replaced at a 2:1 ratio and shown on the landscaping plans for the Planning Division's review and approval. Trees to be retained shall be protected during construction by fencing securely installed at the outer most dripline of the tree or trees. Such fencing shall be maintained throughout the duration of the work undertaken in connection with the winery development/construction. In no case shall construction material, debris or vehicles be stored in the fenced tree protection area.

- d. Evergreen screening shall be installed between the industrial portions of the operation (e.g. tanks, crushing area, parking area, etc.) and any off-site residence from which these areas can be viewed.

6.5 COLORS

The colors used for the roof, exterior walls and built landscaping features of the winery shall be limited to earth tones that will blend the facility into the colors of the surrounding site-specific vegetation. The permittee shall obtain the written approval of the Planning Division in conjunction with building permit review and/or prior to painting the building. Highly reflective surfaces are prohibited.

6.6 OUTDOOR STORAGE/SCREENING/UTILITIES

- a. Details of outdoor storage areas and structures shall be included on the building and landscape plans. All outdoor storage of winery equipment shall be screened from the view of residences of adjacent properties by a visual barrier consisting of fencing or dense landscaping. No stored item shall exceed the height of the screening. Water and fuel tanks, and similar structures, shall be screened to the extent practical so as to not be visible from public roads and adjacent parcels.
- b. New utility lines required for this project that are visible from any designated scenic transportation route (see Community Character Element of the General Plan and the County Code) shall be placed underground or in an equivalent manner be made virtually invisible from the subject roadway.
- c. Exterior winery equipment shall be located, enclosed or muffled so as not to exceed noise thresholds in the County Code.

6.7 TRASH ENCLOSURES

Adequate area must be provided for collection and loading of garbage and recyclables generated by the project. The applicant must work with the franchised garbage hauler for the service area in which they are located, in order to determine the area and the pedestrian and vehicle access needed for the collection site. The garbage and recycling enclosure shall meet the minimum enclosure requirements established by staff and the franchised hauler, which shall be included in the building permit submittal.

6.8 ADDRESSING

All project site addresses shall be determined by the PBES Director, and be reviewed and approved by the United States Post Office. The PBES Director reserves the right to issue or re-issue an appropriate situs address at the time of issuance of any building permit to ensure proper identification and sequencing of I numbers. For multi-tenant or multiple structure projects, this includes building permits for later building modifications or tenant improvements.

6.9 HISTORIC RESOURCES **[RESERVED]**

6.10 DEMOLITION ACTIVITIES **[RESERVED]**

6.11 VIEWSHED – EXECUTION OF USE RESTRICTION

The property owner shall execute and record in the County Recorder’s office a use restriction, in a form approved by County Counsel, requiring the new accessory building exteriors, mechanical equipment, and existing and proposed covering vegetation, as well as any equivalent level of replacement vegetation to be maintained by the owner or the owner’s successor so as to maintain conformance with the County Code.

6.12 PERMIT PREREQUISITE MITIGATION MEASURES **[RESERVED]**

6.13 PARCEL CHANGE REQUIREMENTS **[RESERVED]**

6.14 FINAL MAPS **[RESERVED]**

6.15 OTHER CONDITIONS APPLICABLE TO THE PROJECT PERMITTING PROCESS

- a. In conjunction with building permit application submittal, the permittee shall not include natural gas appliances or natural gas plumbing within new areas of winery building construction and/or renovation of existing winery buildings.
- b. In conjunction with building permit application submittal, the project shall comply with electric vehicle requirements in the most recently adopted version of CALGreen Tier 2.
- c. In conjunction with building permit application submittal, the permittee shall provide documentation confirming to the Planning Division that all checked Voluntary Best Management Practices Measures submitted with the project Use Permit application shall be addressed through project construction and/or implemented through winery operation.
- d. In conjunction with the building permit application submittal, the permittee shall submit plans for a winery sign as required by COA No. 9.2. All signs shall meet the design standards as set forth in the County Code. At least one legible sign shall be placed at the property entrance with the words “Tours and Tasting by Prior Appointment Only” to inform the public of same.
- e. Within 60 days of use permit approval, the permittee shall submit a building permit application to PBES to properly bolt fermentation tanks to the foundation, as required by the California Building Code (CBC).

7.0 PROJECT CONSTRUCTION

Permittee shall comply with the following during project construction:

7.1 **SITE IMPROVEMENTS**

Please contact Engineering Services with any questions regarding the following.

a. GRADING AND SPOILS

All grading and spoils generated by construction of the project facilities shall be managed per Engineering Services direction. Alternative locations for spoils are permitted, subject to review and approval by the PBES Director, when such alternative locations do not change the overall concept, and do not conflict with any environmental mitigation measures or conditions of approval.

b. DUST CONTROL

Water and/or dust palliatives shall be applied in sufficient quantities during grading and other ground disturbing activities on-site to minimize the amount of dust produced. Outdoor construction activities shall not occur when average wind speeds exceed 20 mph.

c. AIR QUALITY

During all construction activities the permittee shall comply with the most current version of BAAD Basic Construction Best Management Practices including but not limited to the following, as applicable:

1. Post a publicly visible sign with the telephone number and person to contact at the lead agency regarding dust complaints. The BAAD's phone number shall also be visible.
2. Water all exposed surfaces (e.g., parking areas, staging areas, soil piles, grading areas, and unpaved access roads) two times per day.
3. Cover all haul trucks transporting soil, sand, or other loose material off-site.
4. Remove all visible mud or dirt traced onto adjacent public roads by using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.
5. All vehicle speeds on unpaved roads shall be limited to 15 mph.
6. All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible. Building pads shall be laid as soon as possible after grading unless seeding or soil binders are used.
7. Idling times shall be minimized either by shutting off equipment when not in use or reducing the maximum idling time to five (5) minutes (as required by State Regulations). Clear signage shall be provided for construction workers at all access points.
8. All construction equipment shall be maintained and properly tuned in accordance with manufacturer's specifications. All equipment shall be checked by a certified visible emissions evaluator. Any portable engines

greater than 50 horsepower or associated equipment operated within the BAAD's jurisdiction shall have either a California Air Resources Board (ARB) registration Portable Equipment Registration Program (PERP) or a BAAD permit. For general information regarding the certified visible emissions evaluator or the registration program, visit the ARB FAQ http://www.arb.ca.gov/portable/perp/perpfact_04-16-15.pdf or the PERP website <http://www.arb.ca.gov/portable/portable.htm>.

d. STORM WATER CONTROL

The permittee shall comply with all construction and post-construction storm water pollution prevention protocols as required by the County Engineering Services Division, and the State Regional Water Quality Control Board.

7.2 ARCHEOLOGICAL FINDING

In the event that archeological artifacts or human remains are discovered during construction, work shall cease in a 50-foot radius surrounding the area of discovery. The permittee shall contact the PBES Department for further guidance, which will likely include the requirement for the permittee to hire a qualified professional to analyze the artifacts encountered and to determine if additional measures are required.

If human remains are encountered during project development, all work in the vicinity must be halted, and the Napa County Coroner informed, so that the Coroner can determine if an investigation of the cause of death is required, and if the remains are of Native American origin. If the remains are of Native American origin, the permittee shall comply with the requirements of Public Resources Code Section 5097.98.

7.3 CONSTRUCTION NOISE

Construction noise shall be minimized to the greatest extent practical and feasible under State and local safety laws, consistent with construction noise levels permitted by the General Plan Community Character Element and the County Noise Ordinance. Construction equipment muffling and hours of operation shall be in compliance with the County Code. Equipment shall be shut down when not in use. Construction equipment shall normally be staged, loaded, and unloaded on the project site, if at all practicable. If project terrain or access road conditions require construction equipment to be staged, loaded, or unloaded off the project site (such as on a neighboring road or at the base of a hill), such activities shall only occur daily between the hours of 8 a.m. to 5 p.m.

7.4 CONSTRUCTION MITIGATION MEASURES **[RESERVED]**

7.5 OTHER CONSTRUCTION CONDITIONS APPLICABLE TO THE PROJECT PROPOSAL **[RESERVED]**

8.0 TEMPORARY CERTIFICATE OF OCCUPANCY - PREREQUISITES

A Temporary Certificate of Occupancy (TCO) may be granted pursuant to the County Code to allow the commencement of production activities prior to completion of all project improvements. Permittee shall comply with the following before a TCO is granted:

8.1 TEMPORARY OCCUPANCY

All life and safety conditions shall be addressed prior to issuance of a TCO by the County Building Official. TCOs shall not be used for the occupancy of hospitality buildings and shall not exceed the maximum time allowed by the County Code which is 180 days. Departments and/or agencies with jurisdiction over the project are authorized as part of the TCO process to require a security deposit or other financial instrument to guarantee completion of unfinished improvements.

9.0 FINAL CERTIFICATE OF OCCUPANCY – PREREQUISITES

Permittee shall comply with the following before a Final Certificate of Occupancy is granted by the County Building Official, which upon granting, authorizes all use permit activities to commence.

9.1 FINAL OCCUPANCY

All project improvements, including compliance with applicable codes, conditions, and requirements of all Departments and Agencies with jurisdiction over the project, shall be completed.

9.2 SIGNS

Detailed plans, including elevations, materials, color, and lighting for any winery identification or directional signs shall be submitted to the Department for administrative review and approval prior to installation. Administrative review and approval is not required if signage to be installed is consistent with signage plans submitted, reviewed and approved as part of this permit approval. All signs shall meet the design standards as set forth in the County Code. At least one legible sign shall be placed at the property entrance with the words “Tours and Tasting by Prior Appointment Only” to inform the public of same. Any off-site signs allowed shall be in conformance with the County Code.

9.3 GATES/ENTRY STRUCTURES

Any gate installed at the winery entrance shall be reviewed by the PBES Department and the Fire Department to assure that the design allows large vehicles, such as motorhomes, to turn around if the gate is closed without backing into the public roadway, and that fire suppression access is available at all times. If the gate is part of an entry structure an additional permit shall be required pursuant to the County Code and in accordance with the Napa County Roads and Street Standards. A separate entry structure permit is not required if the entry structure is consistent with entry structure plans submitted, reviewed, and approved as part of this permit approval.

9.4 LANDSCAPING

Landscaping shall be installed in accordance with the approved landscaping plan.

9.5 ROAD OR TRAFFIC IMPROVEMENT REQUIREMENTS [RESERVED]

9.6 DEMOLITION ACTIVITIES [RESERVED]

9.7 GRADING SPOILS

All spoils shall be removed in accordance with the approved grading permit and/or building permit.

- 9.8 MITIGATION MEASURES APPLICABLE PRIOR TO ISSUANCE OF A FINAL CERTIFICATE OF OCCUPANCY **[RESERVED]**
- 9.9 OTHER CONDITIONS APPLICABLE PRIOR TO ISSUANCE OF A FINAL CERTIFICATE OF OCCUPANCY **[RESERVED]**

MEMORANDUM

To:	Matthew Ringel, Project Planner	From:	Kim Withrow, Environmental Health Supervisor 
Date:	October 16, 2024	Re:	Barnett Vineyards Assessor Parcel #020-300-047 Permit #P19-00125

This Division has reviewed an application requesting approval to increase visitation and production, construct a new winery building, construct a new process water treatment system and related improvements as described and depicted in application materials. This Division has no objection to approval of the application with the following conditions of approval:

Prior to issuance of building permits:

1. Plans for the proposed process water treatment system, as described in the Wastewater Feasibility Report dated February 12, 2020, shall be designed by a licensed Civil Engineer or Registered Environmental Health Specialist and submitted for review accompanied by complete design criteria based upon local conditions and plan check fee. No building clearance (or issuance of a building permit) for any structure that generates wastewater to be disposed of by this system will be approved until such plans are approved and permit to construct the proposed system is issued by this Division.
2. An inspection of the existing wastewater treatment system must be conducted by a licensed sewage contractor prior to issuance of a building permit. Deficiencies noted in the report may have to be repaired under permit issued by this Division. Changes to the sanitary wastewater system may have to be permitted depending upon the nature of the changes proposed.
3. General Waste Discharge Requirements for Winery Process Water discharges to land were adopted by the State Water Quality Control Board in January 2021. As such the applicant shall enroll for coverage under the General Order by submitting an NOI to the Regional Water Quality Control Board as soon as possible (due date was January 20, 2024).
4. Adequate area must be provided for collection of recyclables. The applicant must work with the franchised garbage hauler for the service area in which they are located, to determine the area and the access needed for the collection site. The garbage and recycling enclosure must meet the enclosure requirements provided during use permit process and be included on the building permit submittal. The designated area shall remain available and be properly maintained for its intended use.

5. The water supply and related components must comply with the California Safe Drinking Water Act and Related Laws. This will require plan review and approval prior to approval of building permits. The technical report must be completed by a licensed engineer with experience in designing water systems. The preliminary technical report must be submitted to the Regional Water Quality Control Board staff a minimum of six (6) months prior to beginning any water-related improvement in accordance with the California Health and Safety Code, Section 116527. Prior to occupancy, the owner must apply for and obtain an annual operating permit for the water system from this Division. The applicant must comply with all required monitoring and reporting.

Prior to granting final occupancy:

6. During the construction, demolition, or renovation period of the project the applicant must use the franchised garbage hauler for the service area in which they are located for all wastes generated during project development, unless applicant transports their own waste. If the applicant transports their own waste, they must use the appropriate landfill or solid waste transfer station for the service area in which the project is located.

Upon final occupancy and thereafter:

7. Within 30 (thirty) days of initiation of the use or change of tenants, an updated Hazardous Materials Business shall be submitted to <http://cers.calepa.ca.gov/> and approved by this Division.
8. The applicant shall provide portable toilet facilities for guest use during events as indicated in the septic feasibility report/use permit application. The portable toilet facilities must be pumped by a Napa County permitted pumping company.
9. The use of the absorption field/drain field area and reserve area shall be restricted to activities which will not contribute to compaction of the soil with consequent reduction in soil aeration. Activities which must be avoided in the area of the septic system and reserve include equipment storage, traffic, parking, pavement, livestock, etc.
10. All solid waste shall be stored and disposed of in a manner to prevent nuisances or health threats from insects, vectors and odors.
11. All diatomaceous earth/bentonite must be disposed of in an approved manner. If the proposed septic system is an alternative sewage treatment system, the plan submitted for review and approval must address bentonite disposal.

MEMORANDUM

To: PBES Staff	From: Anna Vickroy, P. E., T.E. Traffic Engineering Consultant
Date: February 28, 2025	Re: Barnett Vineyards (P19-00125) Conditions of Approval Use Permit

This memorandum is prepared at the request of Planning, Building, and Environmental Services (PBES) staff to review the submittal for the Barnett Vineyards Use Permit Modification Project. The proposed use permit modifications is for the existing winery located on 4070 Spring Mountain Road, St. Helena, California, 94574, (APN: 020-300-047).

To prepare this memorandum, the following documents were reviewed:

- Revised Barnett Vineyards Use Permit Modifications Project Narrative
- Winery Trip Generation Worksheet dated February 6, 2025

After careful evaluation of the above mentioned submitted documents, we offer no additional comments at this time.

The Department of Public Works has established the following conditions of approval related to the Use Permit Application Number P19-00125. All listed conditions of approval shall be fully completed accordingly prior to the issuance of Occupancy permit:

1. Project Driveway

Driveway access to the public right-of-way must conform to the latest edition of the Napa County Road and Street Standards.

2. Landscaping Maintenance

Landscaping adjacent to the project driveway shall be designed and maintained to not interfere with sight lines required for safe stopping distance on the public right-of-way. No items wider than 18 inches can be taller than 30 inches other than street trees and traffic control devices. Street trees should be deciduous and have branches lower than 6 feet in height removed once the tree is established.

3. Encroachment Permit Requirement

An encroachment permit along with the required fee and a proposed traffic control plan will be required for the construction of any improvements within the public right-of-way. Please contact the Roads office at (707) 944-0196 to initiate the encroachment permit process. More information on these is available at our website: <http://www.countyofnapa.org/publicworks/roads/>

4. Transportation Demand Management Plan

It is recommended that the applicant/permittee voluntarily explore and implement a Transportation Demand Management (TDM) Plan, which should include measures to reduce daily vehicle trips, particularly during marketing and special events. These measures may include, but are not limited to, subsidized transit passes, carpool/vanpool, and bicycle trip-end facilities.

5. On Street Parking

Parking within the public right-of-way will be prohibited at all times, including large marketing and/or temporary events.

6. Bicycle Facilities

The project shall install bicycle parking adjacent to the guest entrance. Bicycle parking should be provided per the County of Napa Municipal Code.

If you have any questions or concerns on this matter, please contact Ahsan Kazmi, P. E. at ahsan.kazmi@countyofnapa.org or call (707) 259-8370 if you have any questions.

Fire Marshal

Napa County Fire Department Conditions of Approval

TO:	Planning Department	DATE:	7/10/2025
FROM:	Jason Downs, Fire Marshal	PERMIT #	P19-00125
SUBJECT:	Barnett Vineyards	APN:	020-300-047-000

The Napa County Fire Marshal's Office has reviewed the submittal package for the above-proposed project. The Fire Marshal approves the project as submitted with the following conditions of approval:

1. All construction and use of the facility shall comply with all applicable standards, regulations, codes, and ordinances at the time of Building Permit issuance.
2. Beneficial occupancy will not be granted until all fire department fire and life safety items have been installed, tested, and finalized.
3. Where conditions listed in 2022 California Fire Code Section 105 are proposed, separate permits will be required before Building Permit issuance for:
 1. Fire alarm and detection systems and related equipment
 2. Private Fire service mains and their appurtenances
 3. Gates and barricades across fire apparatus access roads
4. All buildings, facilities, and developments shall be accessible to fire department apparatus by way of approved access roadways and/or driveways. The fire access road shall comply with the requirements of the Napa County Road & Street Standards
5. The Napa County Fire Marshal's Office has reviewed and acknowledges the road exception attached to P19-00125. Before issuance of a building or grading permit, the owner shall demonstrate on the plans that all roadway construction associated with this application shall conform to the Road Exception Evaluation composed by the Napa County Engineering Division. Any proposed new or reconstructed roadway, not included in the above-mentioned Road Exception Evaluation shall meet the requirements for a Commercial Driveway as outlined in the latest Napa County Road and Street Standards (RSS).

Fire Marshal

Napa County Fire Department Conditions of Approval

6. Access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be surfaced to provide all-weather driving capabilities. Provide an engineered analysis of the proposed roadway noting its ability to support apparatus weighing 75,000 lbs.
7. Provide fire department access roads to within 150 feet of any exterior portion of the buildings as measured by an approved route around the exterior of the building or facility.
8. Gates for driveways and/or roadways shall comply with the California Fire Code, section 503.5, the Napa County Road & Street Standards, and CA Fire Safe Regulations for projects within SRA. All residential properties with an electric gate are required to install a Knox Key Switch (Model 3501 or 3502). Manual gates shall be secured with a Knox Padlock.
9. Turnouts shall be a minimum of 12 feet in width, 30 feet in length, and 25-foot taper on each end.
10. Turnarounds are required on driveways and dead-end roadways.
11. Grades for all roadways and driveways shall not exceed 16 percent. The roadway grade may exceed 16 percent, not to exceed 20 percent, provided the provisions outlined in the NCRSS are met.
12. Roadway radius shall not have an inside radius of less than 50 feet. An additional surface width of 4 feet shall be added to curves of 50-100 feet radius and 2 feet to curves of 100-200 feet radius.
13. Commercial - Water storage (for buildings not served by a public water system) and fire flow calculations shall be provided by a Certified State Licensed Civil Engineer, C-16 licensed contractor, or registered engineer indicating compliance with California Fire Code Appendix B and the Napa County Municipal Code.

Jason W. Downs
Fire Marshal

Napa County Fire Department Conditions of Approval

14. Commercial - Approved pressurized hydrants shall be installed within 250 feet of any exterior portion of the building as measured along vehicular access roads. Private fire service mains shall be installed, tested, and maintained per NFPA 24.
15. Commercial - The minimum main size of all fire hydrants shall be 6 inches in diameter. Piping shall be installed with C-900 class 200 piping or ductile iron or equivalent per NFPA 24 for the installation of Underground Fire Protection Mains
16. All buildings shall comply with California Fire Code, Chapter 10 Means of Egress requirements. Including but not limited to; exit signs, exit doors, exit hardware, and exit illumination.
17. Screening required under Napa County's Viewshed Ordinance must also comply with the Napa County Defensible Space Ordinance and Guidelines. Please revise your landscape plans to address the following requirements:

Tree Placement: Due to the slope surrounding the building site, all trees must be planted a minimum of 30 feet from any structure. Additionally, tree canopies must be spaced at least 10 feet apart to reduce fire risk and ensure compliance with defensible space requirements.

Ember-Resistant Zone: A 5-foot Ember-Resistant Zone must be established and maintained around all structures. This includes not only the structure itself but also any attached or adjacent features such as decks, outdoor furniture, fences, and retaining walls. Materials and vegetation within this zone must be selected and maintained to minimize the risk of ember ignition.

Planter Areas: All planter areas must be designed to be Ember-Resistant. Organic mulch is not permitted. Acceptable materials include gravel, crushed rock, or other non-combustible hardscape options.

Pyrophytic Species: The current landscape plan includes a proposed hedge made up of a pyrophytic (highly flammable) plant species. This must be revised and replaced with non-pyrophytic alternatives. Please update the Landscape Plans accordingly.

Additional information on these requirements can be found here: [Defensible Space | Napa County, CA.](#)

Napa County Fire Department Conditions of Approval

18. Provide and maintain a minimum 100-foot defensible space around all structures, in compliance with the Napa County Defensible Space Ordinance, the Napa County Fire Marshal's Defensible Space Guidelines, and California Public Resources Code Section 4291, as applicable. Defensible space shall be established prior to final project approval or occupancy and maintained in a fire-safe condition for the life of the project, subject to inspection by the Napa County Fire Marshal's Office.
19. Provide and maintain a minimum 10-foot defensible space on both sides of all roadways, driveways, and access routes leading to the facility, measured from the edge of the roadway surface. This defensible space shall comply with the Napa County Defensible Space Ordinance and the Fire Marshal's Defensible Space Guidelines and shall be always maintained in a fire-safe condition, subject to inspection and verification by the Napa County Fire Marshal's Office.

Please note the conditions of approval noted above are based on the Fire Marshal review only. There may be additional comments or information requested from other County Departments or Divisions reviewing this application package. Napa County Fire Marshal's Office Development Guidelines can be found @ www.countyofnapa.org/firemarshal. Should you have any further questions please contact the Napa County Fire Marshal's Office by email at Fire.Marshal@countyofnapa.org.

MEMORANDUM

To: Matt Ringel Planning Division	From: Alexei Belov, PE Engineering Division
Date: December 23, 2025	Re: P19-00125 Barnett Vineyards Technical Adequacy Conditions of Approval APN: 020-300-047-000

The Engineering Division ("Engineering") has reviewed the new Use Permit, P19-00125, for Barnett Vineyards located on assessor's parcel number 020-300-047. Based upon the information provided in the application, Engineering finds the application **complete** and recommends the following:

TECHNICAL ADEQUACY

1. The Engineering Division has reviewed the revised Water Availability Analysis (WAA) dated December 2, 2025, prepared by Matthew O'Connor, PhD, CEG, of O'Connor Environmental, Inc. The analysis has been evaluated based on information provided by the applicant, project location, and available geologic and hydrologic information and has determined the WAA to be complete and reasonable. Engineering concludes the WAA is technically adequate as it relates to Napa County's water use criteria, well and spring interference, and groundwater/surface water interaction pursuant to Napa County's WAA Guidelines, Napa Valley Subbasin Groundwater Sustainability Plan, Governor's Executive Orders N-7-22/N-3-23/N-3-24, and the Public Trust Doctrine.

RECOMMENDED APPROVAL CONDITIONS:

OPERATIONAL CHARACTERISTICS

1. The facility is designated as a discharger that discharges stormwater associated with industrial activity to Water of the United States. Therefore, the facility shall maintain or apply for coverage under the State Water Resources Control Board's Industrial General Permit (IGP), including meeting all applicable provisions and protocols of the IGP. If the facility fails to meet the discharge prohibitions of the IGP, Napa County may require the facility to make the necessary improvements to eliminate all exposures to stormwater of the pollutant(s) for which the water body is impaired.

PREREQUISITES FOR ISSUANCE OF PERMITS

2. Any roadway, access driveway, and parking areas, proposed new or reconstructed shall meet the requirements as outlined in the latest edition of the Napa County Road and Street Standards for Commercial development at the time of Building Permit Submittal and the Road Exception Request dated April 4, 2022, prepared by Joel Dickerson, PE, of Madrone Engineering. The property owner shall obtain a grading permit for all proposed roadway improvements.

SITE IMPROVEMENTS

3. All on site civil improvements including but not limited to the excavation, fill, general grading, drainage, curb, gutter, surface drainage, storm drainage, and parking and driveways, shall be constructed according to plans prepared by a registered civil engineer, which will be reviewed and approved by the Engineering Division of the Napa County Planning, Building and Environmental Services Department (PBES) **prior to the commencement** of any on site land preparation or construction. Plans shall be wet signed and submitted with the grading permit documents at the time of permit application. A plan check fee will apply.
4. Grading and drainage improvements shall be constructed according to the current Napa County Road and Street Standards, Chapter 16.28 of the Napa County Code, and Appendix J of the California Building Code.
5. Proposed drainage for the development shall be shown on the improvement plans and shall be accomplished to avoid the diversion or concentration of storm water runoff onto adjacent properties. Plan shall also indicate the path and changes in runoff.
6. **Prior to issuance of a development permit** (i.e. building permit and/or grading permit) the owner shall submit the necessary documents for Erosion Control as determined by the area of disturbance of the proposed development in accordance with the Napa Countywide Stormwater Pollution Prevention Program Erosion and Sediment Control Plan Guidance document, dated December 2014.
7. **Prior to issuance of a development permit**, as determined by the area of new or replaced impervious surfaces, the owner shall prepare and/or update a Regulated Project Stormwater Control Plan (SCP) in accordance with the latest edition of the BASMAA Post-Construction Manual for review and approval by the Engineering Division in PBES.
8. Any construction activity that equals or exceeds one acre of total disturbed area shall prepare a Stormwater Pollution Prevention Plan (SWPPP) in accordance with the regulations of Regional Water Quality Control Board (RWQCB) and shall file a Notice of Intent (NOI) prior to commencement of any construction activity. The completed SWPPP shall be submitted to the Napa County PBES Department Engineering Division for review.

CONSTRUCTION SITE RUNOFF CONTROL REQUIREMENTS:

9. All earth disturbing activities shall include measures to prevent erosion, sediment, and waste materials from leaving the site and entering waterways both during and after construction in conformance with Napa County Stormwater Ordinance 1400 and the latest adopted state regulations. Best Management Practices (BMPs) shall also be implemented to minimize dust at all times.
10. All hazardous materials stored and used on-site during construction that could cause water pollution (e.g. motor oil, cleaning chemicals, paints, concrete, etc.) shall be stored and used in a manner that will not cause pollution, with secondary containment provided. Such storage areas shall be regularly cleaned to remove litter and debris. Any spills shall be promptly cleaned up and appropriate authorities notified.
11. All trash enclosures must be covered and protected from rain, roof, and graded to preclude surface runoff.

POST-CONSTRUCTION RUNOFF MANAGEMENT REQUIREMENTS:

12. Refuse areas shall be covered, graded, and paved to prevent run-on and runoff. Drains within a refuse area shall be connected to the sanitary waste system.
13. All roofs, gutters, and/or downspouts shall discharge to landscaping or other pervious surface designed and maintained appropriately to prevent soil erosion.
14. Processing areas, including but not limited to wine grape crushing/pressing, juice fermentation, blending and fining, filtration and bottling, shall be paved and performed indoors or under approved cover.

PREREQUISITES FOR FINAL CERTIFICATION OF OCCUPANCY

15. All necessary access, road, and parking improvements shall be constructed prior to Final Occupancy.
16. Site shall be completely stabilized to the satisfaction of the County Engineer prior to Final Occupancy.
17. An Operation and Maintenance agreement for any proposed stormwater treatment facilities shall be submitted and recorded prior to Final Occupancy.

P19-00125 4070 SPRING MOUNTAIN ROAD – BARNETT VINEYARDS

ENGINEERING SERVICE

ENGINEERING CONDITIONS OF APPROVAL

Page 4 of 4

Any changes in use or design may necessitate additional review and approval. If you have any questions regarding the above items please contact Alexei Belov from Napa County PBES Department Engineering Division at (707) 299.2177 or via e-mail at Alexei.Belov@countyofnapa.org.
