Trevor:

Thank you for sending me the ZA Agenda for January 22, 2025. I will be attending this meeting to address Item 2A on behalf of my client Betsy Moulds the property owner to the north of the Padis residence. Our primary concern is related to drainage from the Padis residence that has and potentially still is damaging the Moulds parcel.

Please note that we are not opposed to the project, we are just wanting to make sure that our concerns are entered into the record as a condition of approval.

I look forward to seeing you tomorrow morning.
