Hey Michael,

Thank you for the heads up. Yes, you may use my email as a public comment. I'm also in favor of Napa County revisiting the exception process for setbacks for converting existing structures and access road requirements.

Question: would you be comfortable with me using your email below as public comment for staff recommended changes? If not, no worries.

Hope your day is off to a nice start.

Best,

Hey Michael,

Thank you for your time today. I didn't have a chance to mention that I am all for Napa County expanding the ADT, gallonage and adding marketing events for Micro wineries. Increasing the permit limits improves the chances of micro-winerries being successful in the future.
