Napa Valley Festival Association	Special Programs & Projects	In its 2025 Spring Season, Festival Napa Valley will conduct a week-long artist-in-residency by the internationally acclaimed NY-based chamber music ensemble, PUBLIQuartet, specializing in interactive instructional and improvisational work in community-based and therapeutic settings. Their residency in Napa County centers around a series of hands-on workshops and interactive performances with seniors and veterans delivered at the California Veterans Home in Yountville, Rianda House in St. Helena, and assisted living centers in Napa. Utilizing live music to engage socially isolated populations, including many with dementia, the participatory character of PUBLIQuartet's performance style allows audience members to experience the uplifting power of both listening to and making music with others.	\$27,500	N/A	80	RECUSED	75	75	77	74	76.20	95.25%	\$27,500
Napa Valley Museum	Capital Improvement	This project is to create the Napa Valley Museum of Art & Culture ("the MAC") at the entrance to St Helena on Highway 29, in the former Dean & Deluca/Gary's Wine building. The space will be reimagined, transforming from a former grocery store and wine emporium with coffee bar, to a world-class arts and cultural institution, with a flexible 4,200 sf gallery and additional 2,000 sf Museum Store, Office and Storage space. The Museum will be sharing the building with a new culinary concept from the adjacent Michelin-star PRESS Restaurant. The project will further the Museum's mission of enriching the cultural fabric of our community through exhibitions, collections, educational programs and creative activities that promote knowledge and understanding of art, nature and history. The more visible location will add to the relevance of our organization to its community, visitors and supporters, and the enhanced traffic will promote our long-term sustainability	\$27,500	N/A	67	70	80	70	75	78	73.33	91.67%	\$27,500
Music in the Vineyards	Capacity Building	Music in the Vineyards purchased our Steinway Hamburg Model D grand piano in 2001 which has been used annually every day of the festival. Our piano tuner let us know last summer that it needs some work to be carried out to keep it in top playing condition. He would like undertake a piano regulation - to adjust all the parts of a piano so that they operate uniformly and efficiently. Our piano will be taken out of storage and set upright for a full-days work to be done.	\$5,169	N/A	80	75	59	75	80	68	72.83	91.04%	\$5,169
Music in the Vineyards	Special Programs & Projects	2024 is celebration of our presence in the Napa Valley for 30 years. As part of the festivities we are putting together an exhibition of MITV's archive which will be displayed at concert venues. Included in the exhibition will be interactive QR codes where patrons can take part in a quiz and view video content. The exhibition will also contain historical information and photographs from all our community outreach work in the valley. Also to mark the 30th anniversary we have commissioned a new work for string quartet, a fun, theatrical, lively, and exciting work by Clarice Assad. This work is being commissioned to be performed by the Music in the Vineyards Fellowship String Quartet who are a young pre-professional quartet recruited each year to participate in the festival. The piece will be performed by the quartet at the full series of community outreach performances throughout the Napa Valley.	\$21,860	N/A	80	71	59	78	73	71	72.00	90.00%	\$21,860
di Rosa Preserve	Collaborative	Shakespeare Napa Valley and di Rosa are excited to propose "Shakespeare Summer Stroll." Originally offered by the two organizations in 2021 and 2023, this robust program provides a site-integrated presentation of Shakespeare's "Twelfth Night," interwoven with the outdoor sculptures and spaces at di Rosa.	\$20,000	N/A	68	66	76	80	75	65	71.67	89.58%	\$20,000
