IMPLIED SUBSIDY

- For PEMHCA, employer cost for allowing retirees to participate at active rates.
 - General trend:

- Sample active age 40, retire age 60:

IMPLIED SUBSIDY

- GASBS 75 defers to actuarial standards of practice.
- Previous Actuarial Standards of Practice No. 6⁷ (ASOP 6) allows community rated plans to value liability using premiums, resulting in no implied subsidy.
- In May 2014, Actuarial Standards Board released revised ASOP 6:
 - Requires implied subsidy valued for community rated plans such as PEMHCA.
 - Timing: effective with all valuations on or after March 31, 2015 with earlier implementation encouraged.
- County implemented early
- June 30, 2013 valuation and later valuations include the implied subsidy.

ACTUARIAL CERTIFICATION

This report presents the County of Napa Retiree Healthcare Plan ("Plan") June 30, 2021 actuarial valuation. The purpose of this valuation is to:

- Determine the Plan's June 30, 2021 Benefit Obligations,
- Determine the Plan's June 30, 2021 Funded Status, and
- Calculate the 2023/24 and 2024/25 Actuarially Determined Contributions.

Information provided in this report may be useful to the County for the Plan's financial management. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as: plan experience differing from that anticipated by the assumptions; changes in assumptions; changes expected as part of the natural progression of the plan; and changes in plan provisions or applicable law. Actuarial models necessarily rely on the use of estimates and are sensitive to changes. Small variations in estimates may lead to significant changes in actuarial measurements. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of such measurements.

The valuation is based on Plan provisions, participant data, and asset information provided by the County as summarized in this report, which we relied on and did not audit. We reviewed the participant data for reasonableness.

To the best of our knowledge, this report is complete and accurate and has been conducted using generally accepted actuarial principles and practices. As members of the American Academy of Actuaries meeting the Academy Qualification Standards, we certify the actuarial results and opinions herein.

DEFINITIONS

- **AAL – Actuarial Accrued Liability / Actuarial Obligation**
 - Discounted value at measurement date (valuation date) of benefits “earned” through measurement date based on actuarial cost method
 - Portion of PVB “earned” at measurement
- **NC - Normal Cost**
 - Value of benefits “earned” during current year
 - Portion of PVB allocated to current year
- **Actuarial Cost Method**
 - Determines how benefits are “earned” or allocated to each year of service
 - Has no effect on PVB
 - Has significant effect on Actuarial Obligations and Normal Cost
- **Pay-As-You-Go Cost (PayGo)**
 - Cash Subsidy – Actual cash benefit payments to retirees
 - Implied Subsidy – Difference between cost of retiree benefits and retiree premiums
 - PayGo is the expected retiree benefit payments for the year while Normal Cost is the cost of benefits accrued by active employees during the year.
